ABBEY CAPITAL MULTI ASSET FUND

ANNUAL INVESTMENT ADVISER'S REPORT (UNAUDITED)

AUGUST 31, 2023

Dear Shareholder,

The Abbey Capital Multi Asset Fund (the "Fund") Class I Shares returned +0.38% net of fees for the 12-month fiscal year ended August 31, 2023.

Positive performance was driven by the long US equity component of the Fund's investment strategy. The Fund's managed futures component had negative returns over the 12-month period, with losses concentrated in energy, metals and bonds. The Fund targets approximately 100% exposure of its net assets to its managed futures strategy and approximately 50% exposure to its long US equity strategy. The Fund's remaining net assets are allocated to its fixed income strategy. The managed futures strategy is achieved by the Fund investing up to 25% of its total assets in ACMAF Master Offshore Limited (the "ACMAF Master"), a wholly-owned subsidiary of the Fund that invests substantially all of its assets in ACMAF Offshore SPC, which is a wholly-owned and controlled segregated portfolio company and is a multi-adviser fund that invests in managed futures and foreign exchange contracts. As part of its managed futures strategy, the Fund may also invest a portion of its assets in ACMAF Onshore Series LLC, a wholly-owned subsidiary of the Fund which is a multi-adviser fund that invests in managed futures and foreign exchange contracts.

- * Class A Shares performance prior to its inception on February 16, 2022 is the performance of Class I Shares, adjusted for the Class A Shares expense ratio. There is a maximum sales charge (load) imposed on purchases (as a percentage of offering price) of 5.75% on Class A Shares.
- ** Class C Shares performance prior to its inception on November 8, 2021 is the performance of Class I Shares, adjusted for the Class C Shares expense ratio. The Fund charges a contingent deferred sales charge ("CDSC") of 1.00% on certain redemptions of Class C Shares made within 12 months of purchase. The CDSC is assessed on an amount equal to the lesser of the offering price at the time of purchase of the Class C Shares redeemed or the net asset value of the Class C Shares redeemed at the time of redemption.
- *** The Barclay CTA Index is derived from data that is self-reported by investment managers based on the performance of privately managed funds. In contrast, the S&P 500® Total Return Index and the ICE BofA 3-Month U.S. Treasury Bill Index are comprised of publicly traded securities. As a result of these differences, these indices may not be directly comparable and the table above is shown for illustrative purposes only.

Abbey Capital Limited (the "Adviser") has contractually agreed to waive its advisory fee and/or reimburse expenses in order to limit total annual fund operating expenses (excluding acquired fund fees and expenses, brokerage commissions, extraordinary items, interest or taxes) to 1.79%, 2.04% and 2.79% of the Fund's average daily net assets attributable to Class I Shares, Class A Shares and Class C Shares, respectively. This contractual limitation is in effect until December 31, 2023, and may not be terminated without the approval of the Board of Directors of The RBB Fund, Inc. In addition, the Adviser may recoup any waived or reimbursed amounts from the Fund within three years from the date on which such waiver or reimbursement was made by the Adviser, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement. Without the expense limitation agreement, the expense ratios are 1.98%, 2.23% and 2.98% of the Fund's average daily net assets attributable to Class I Shares, Class A Shares and Class C Shares, respectively, as stated in the Fund's current prospectus dated December 31, 2022, as supplemented (and which may differ from the actual expense ratios for the period covered by this report). The quoted performance would have been lower without the expense limitation.

Please refer to the prospectus for further information on expenses and fees.

Performance Analysis

The 12-month period ended August 31, 2023 was positive overall for Fund performance. The Fund's Long US Equity strategy drove gains for the period, while the Managed Futures strategy saw losses.

Central bank monetary policy was an important driver of market moves throughout the 12-month period. Most central banks began aggressive interest rate hiking policies during the first half of 2022, and this hawkish shift in policy continued in the second half of the year and into 2023.

Inflation slowed from multi-decade highs during the period, with US inflation falling significantly from its peak in June 2022. The pace at which inflation slowed became a key focus for investors as markets tried to anticipate central bank policy responses to falling, albeit elevated, inflation. As we moved into 2023, central banks continued to raise rates, but in smaller increments. Investor focus shifted away from forecasting how high interest rates could go, and instead moved towards assessing when the peak in global central bank rates may occur and when central banks may begin to start cutting rates.

This slowdown in inflation supported equity returns. Stock markets steadied over the second half of 2022, though this period did see some notable negative and positive months as investors digested both hawkish and dovish central bank guidance. Equities then rallied strongly over the first eight months of 2023 alongside slowing inflation, generally strong corporate earnings, solid US economic data and hopes that we were approaching the end of the global rate hiking cycle.

Commodity markets were challenging for much of the period. Demand uncertainty amid a mixed global growth backdrop was a feature of several markets, with the outlook for the Chinese economy a factor within growth-sensitive markets like energy and base metals. Economic data from China was subdued for much of the period, while the reopening of the Chinese economy post-lockdowns in early 2023 ultimately stuttered and the much anticipated rebound in economic activity proved weaker than anticipated. Offsetting this uncertain demand backdrop were supply concerns in some markets, for example in crude oil where OPEC+ production cuts were a feature, as well as in several agricultural markets like cocoa and sugar. This combination of supply and demand considerations contributed to a lack of clear trends and frequent price reversals across many commodity markets.

Fund performance from September to December 2022 was negative, with choppy price moves in commodity markets, most notably energy, proving particularly challenging for the Fund. Notable losses occurred in fixed income and currencies in November 2022, when the release of weaker- than-expected US inflation data prompted a dovish revision to market expectations for Federal Reserve

ANNUAL INVESTMENT ADVISER'S REPORT (UNAUDITED) (CONTINUED) AUGUST 31, 2023

monetary policy going forward and a notable correction to year-to-date uptrends in yields and the US Dollar. The Long US Equity strategy was slightly negative amid choppy moves in US stocks over the period. US equities fell in September 2022 as higher-than-expected inflation, global growth concerns and a 75 basis point interest rate hike by the Federal Reserve weighed on prices. Stocks then rebounded in October and November 2022 as speculation about a slower pace of monetary policy tightening and solid earnings data boosted prices. The year-to-date sell-off in equities then resumed in December 2022 as central bank rhetoric turned hawkish once again.

Fund performance was also negative in Q1 2023 due to losses for the Managed Futures strategy. Concerns for the global banking sector in March 2023 following the collapse of Silicon Valley Bank caused a sharp move lower in yields and interest rate expectations. This was, in part, due to concerns about the impact of higher interest rates on the broader economy, and as uncertainty about whether the Federal Reserve could maintain a hawkish monetary policy stance intensified. This sharp reversal in yields was negative for the Managed Futures strategy which held short positions across several fixed income contracts.

The Long US equity strategy was positive in Q1 2023 as US equities rallied for the 2nd straight quarter, despite the volatility in the banking sector, as declining US inflation data and solid US economic data helped to support prices.

The performance backdrop for the Fund improved from April to August 2023. Longer-term price trends re-emerged in currencies and fixed income as expectations for central bank monetary policy turned more hawkish and concerns about the health of the banking sector eased which resulted in gains for the Managed Futures strategy. Equities broadly rallied for the period with outperformance of technology stocks and strong US economic data key drivers of markets. This proved profitable for the Fund's Long US Equity strategy while the Managed Futures strategy was mixed, ultimately seeing losses.

For the 12-month period overall, the Fund's positive performance was driven by the Long US Equity strategy while performance for the Managed Futures strategy was negative.

The Long US Equity strategy recorded gains as the S&P 500 Index rose +13.6% over the 12-month period. The sharp uptick in technology stocks from the start of 2023 onwards helped the S&P 500 Index to rally, as the potential for an artificial intelligence technologies boom supported stocks such as NVIDIA. Stronger-than-expected US economic data acted as a further tailwind for prices, as investors speculated on the potential for a "soft landing" for the US economy, despite multiple interest rate hikes by the US Federal Reserve.

The Fund's Managed Futures strategy saw losses over the 12-month period, with the largest losses occurring in metals. Price moves were often range-bound with the Fund's sub-advisers suffering from sharp price reversals at times. In precious metals, positioning in silver and gold transitioned between long and short as sustained price trends failed to emerge, leading to steady losses throughout the period. Prices of both metals responded to the fluctuating value of the US Dollar and choppiness in global yields. Negative performance in copper was more concentrated in March and April 2023, when long positions incurred losses as prices fell in response to weak Chinese economic data, risk-off sentiment in markets amid banking sector concerns and US-China tensions.

Negative performance in energy was concentrated in crude oil and distillate futures contracts. Prices proved choppy over the period owing to a lack of clear trends and frequent price reversals occurring. Demand-side factors behind these price moves included global demand uncertainty and the subdued economic performance in China following the reopening of the nation's economy, while OPEC+ policy changes impacted global supplies at different times.

Fixed income was a negative sector for the Fund during the 12-month period, with losses in bonds outweighing gains in interest rates. Several shifts for expectations around central bank policy proved tricky for the Fund's sub-advisers, with losses concentrated in German and Australian government bond contracts. The largest losses occurred in March as yields fell following the fall-out from the collapse of Silicon Valley Bank.

In contrast to the Long US Equity strategy, trading in equities proved difficult for the Fund's Managed Futures strategy. Losses were concentrated in March and August 2023 as reversals to uptrends in the sector at those times resulted in losses. The sell-off in March 2023 amid the mounting concerns for the banking sector resulted in losses from long positions. A more hawkish monetary policy outlook in August 2023 saw global indices fall leading to further losses for the Fund's long exposures.

Agricultural commodities was another negative sector for the Fund during the 12-month period. Losses in corn, soybean and coffee futures contracts were partially offset by gains in sugar and cocoa. Soybean losses stemmed from long positions while mixed positioning in response to range-bound price moves in corn and coffee also incurred losses for the Fund. Long positions in sugar and cocoa generated positive performance as prices in both commodities rose to multi-year highs in 2023 owing to weather-related supply concerns.

ANNUAL INVESTMENT ADVISER'S REPORT (UNAUDITED) (CONCLUDED)

AUGUST 31, 2023

Positively, the Manged Futures strategy did see partially offsetting gains in currencies over the 12- month period. Gains were concentrated in long positions in the Mexican Peso and short positions in the Japanese Yen relative to the US Dollar. The Mexican Peso rallied over the period owing to strong Mexican economic data and rate increases by the Bank of Mexico which led to an attractive carry relative to US yields. In addition, robust US economic data was a further tailwind given the close links between the Mexican and US economies. Meanwhile, the Japanese Yen weakened over the period as the Bank of Japan remained an outlier relative to global peers as it persisted with its dovish policies of yield curve control and negative interest rates.

An investment in the Fund is speculative and involves substantial risk. It is possible that an investor may lose some or all of their investment. The Fund may invest up to 25% of its total assets in ACMAF Master, a wholly-owned subsidiary of the Fund that invests substantially all of its assets in ACMAF Offshore SPC, which is a wholly-owned and controlled segregated portfolio company that invests in managed futures and foreign exchange contracts. The Fund may also invest a portion of its assets into ACMAF Onshore Series LLC, which is a multi-adviser fund that invests in managed futures and foreign exchange contracts. All investments in securities involve risk of the loss of capital. An investment in the Fund includes the risks inherent in an investment in securities, as well as specific risks associated with this open-ended investment product. Among the risks associated with investing in this Fund are Commodity Sector Risk, Counter-Party Risk, Credit Risk, Currency Risk, Manager and Management Risks, Subsidiary Risk, Tax Risk, Emerging Markets Risk, Leveraging Risk, Foreign Investment Risk, Fixed Income Securities Risks, Short Sale Risk and Portfolio Turnover Risks. The Fund may invest in or utilize derivative investments, futures contracts, and hedging strategies. One or more Trading Advisers, from time to time, may invest a substantial portion of the assets managed in a specific industry sector. As a result, the Fund's investment portfolio may be subject to greater risk and volatility than if investments had been made in the securities of a broader range of issuers. There can be no assurance that the Fund's strategy (hedging or otherwise) will be successful or that it will employ such strategies with respect to all or any portion of its portfolio. The value of the Fund's portfolio investments should be expected to fluctuate. Investing in managed futures is not suitable for all investors given its speculative nature and the high level of risk involved. The Fund is appropriate only for investors who can bear the risks associated with the product. This brief statement cannot disclose all of the risks and other factors necessary to evaluate an investment in the Fund. Investors are urged to take appropriate investment advice and to carefully consider their investment objectives, personal situation, and factors such as net worth, income, age, risk tolerance and liquidity needs before investing in the Fund. Before investing, investors should carefully consider the Fund's investment objectives, risks, tax considerations, sales charges and expenses.

FUND EXPENSE EXAMPLE AUGUST 31, 2023 (UNAUDITED)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, (if any) and (2) ongoing costs, including management fees, distribution and/or service (12b-1) fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from March 1, 2023 through August 31, 2023, and held for the entire period.

ACTUAL EXPENSES

The first section of the accompanying table provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second section of the accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) on purchase payments (if any). Therefore, the second section of the accompanying table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Class I Shares	1,000.00	1,016.18	9.10	1.79%	N/A
Class C Shares	1,000.00	1,011.14	14.14	2.79%	N/A

⁽¹⁾ Expenses are equal to the Fund's Class A Shares, Class I Shares, and Class C Shares annualized six-month expense ratios for the period March 1, 2023 through August 31, 2023, multiplied by the average account value over the period, multiplied by the number of days (184) in the most recent fiscal half-year, then divided by 365 to reflect the one half year period. The Fund's ending account values in the first section in the table are based on the actual six-month total investment return for the Fund's respective share classes.

⁽²⁾ Ratios reflect expenses waived by the Fund's investment adviser. Without these waivers, the Fund's expenses would have been higher and the ending account values would have been lower.

ABBEY CAPITAL MULTI ASSET FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AUGUST 31, 2023

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The RBB Fund, Inc. (“RBB” or the “Company”) was incorporated under the laws of the State of Maryland on February 29, 1988 and is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. RBB is a “series fund,” which is a mutual fund complex divided into separate portfolios. Each portfolio is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one portfolio is not deemed to be a shareholder of any other portfolio. Currently, RBB has fifty-three separate investment portfolios, including the Abbey Capital Multi Asset Fund (the “Fund”), which commenced investment operations on April 11, 2018. The Fund is authorized to offer three classes of shares, Class A Shares, Class I Shares and Class C Shares. Class A Shares are sold subject to a front-end maximum sales charge of 5.75%. Front-end sales charges may be reduced or waived under certain circumstances.

RBB has authorized capital of one hundred billion shares of common stock of which 91.523 billion shares are currently classified into two hundred and twenty-two classes of common stock. Each class represents an interest in an active or inactive RBB investment portfolio.

The Fund seeks to achieve its investment objective by allocating its assets between a “Managed Futures” strategy, a “Long U.S. Equity” strategy and a “Fixed Income” strategy.

The Fund is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “Financial Services – Investment Companies.”

The end of the reporting period for the Fund is August 31, 2023, and the period covered by these Notes to Consolidated Financial Statements is the fiscal year ended August 31, 2023 (the “current fiscal period”).

CONSOLIDATION OF SUBSIDIARIES — The Managed Futures strategy is achieved by the Fund investing up to 25% of its total assets in ACMAF Master Offshore Limited (the “Cayman Subsidiary”), a wholly-owned and controlled subsidiary of the Fund organized under the acts of the Cayman Islands. Effective on or about November 12, 2020, the Fund’s previous wholly-owned subsidiary, the Abbey Capital Multi Asset Offshore Fund Limited, became a wholly-owned subsidiary of the Cayman Subsidiary through a share exchange between the Fund and the Cayman Subsidiary and registered as a segregated portfolio company under the acts of the Cayman Islands under the name ACMAF Offshore SPC (the “SPC”). The Cayman Subsidiary invests all or substantially all of its assets in segregated portfolios of the SPC. The Cayman Subsidiary serves solely as an intermediate entity through which the Fund invests in the SPC and makes no independent investment decisions and has no investment or other discretion over the Fund’s investable assets.

Effective on or about July 8, 2021, the Fund may also invest a portion of its assets in segregated series of another wholly-owned subsidiary of the Fund, the ACMAF Onshore Series LLC (the “Onshore Subsidiary”), a Delaware series limited liability company.

The consolidated financial statements of the Fund include the financial statements of the Cayman Subsidiary, the Onshore Subsidiary and SPC. The Fund consolidates the results of subsidiaries in which the Fund holds a controlling financial interest. All inter-company accounts and transactions have been eliminated. As of the end of the reporting period, the net assets of the Cayman Subsidiary and SPC were \$ \$111,496,251, which represented 22.12% of the Fund’s net assets. As of the end of the reporting period, the net assets of the Onshore Subsidiary were \$ \$75,562,610, which represented 14.99% of the Fund’s net assets.

PORTFOLIO VALUATION — The Fund’s net asset value (“NAV”) is calculated once daily at the close of regular trading hours on the New York Stock Exchange (“NYSE”) (generally 4:00 p.m. Eastern time) on each day the NYSE is open. Securities held by the Fund are valued using the closing price or the last sale price on a national securities exchange or the National Association of Securities Dealers Automatic Quotation System (“NASDAQ”) market system where they are primarily traded. Fixed income securities are valued using an independent pricing service, which considers such factors as security prices, yields, maturities and ratings, and are deemed representative of market values at the close

of the market. Forward exchange contracts are valued by interpolating between spot and forward currency rates as quoted by an independent pricing service. Futures contracts are generally valued using the settlement price determined by the relevant exchange. If market quotations are unavailable or deemed unreliable, securities will be valued by the Valuation Designee (as defined below) in accordance with procedures adopted by the Company's Board of Directors (the "Board"). Relying on prices supplied by pricing services or dealers or using fair valuation may result in values that are higher or lower than the values used by other investment companies and investors to price the same investments.

The Board has adopted a pricing and valuation policy for use by the Fund and its Valuation Designee (as defined below) in calculating the Fund's NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Fund has designated Abbey Capital Limited (the "Adviser" or "Abbey Capital") as its "Valuation Designee" to perform all of the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable.

FAIR VALUE MEASUREMENTS — The inputs and valuation techniques used to measure the fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 – Prices are determined using quoted prices in active markets for identical securities.
- Level 2 – Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 – Prices are determined using significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of the end of the reporting period, in valuing the Fund's investments carried at fair value:

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles ("U.S. GAAP") requires the Fund to present a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. Transfers in and out between levels are based on values at the end of the period. A reconciliation of Level 3 investments is presented only when the Fund had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for Level 3 transfers are disclosed if the Fund had an amount of total Level 3 transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

During the current fiscal period, the Fund had no Level 3 transfers.

DISCLOSURES ABOUT DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES — Derivative instruments are defined as financial instruments whose value and performance are based on the value and performance of another security or financial instrument. Derivative instruments that the Fund used during the period include forward foreign currency contracts and futures contracts.

During the current fiscal period, the Fund used long and short contracts on U.S. and foreign equity market indices, U.S. and foreign government bonds, foreign currencies, interest rates and commodities (through investment in the Cayman Subsidiary, the SPC and the Onshore Subsidiary), to gain investment exposure in accordance with its investment objective.

The following tables provide quantitative disclosures about fair value amounts of, and gains and losses on, the Fund's derivative instruments as of and for the current fiscal period.

(1) Net amount represents the net amount receivable from the counterparty in the event of default.

(2) Actual collateral pledged may be more than the amount shown.

(3) Net amount represents the net amount payable to the counterparty in the event of default.

USE OF ESTIMATES — The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those differences could be significant.

INVESTMENT TRANSACTIONS, INVESTMENT INCOME AND EXPENSES — The Fund records security transactions based on trade date for financial reporting purposes. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes in determining realized gains and losses on investments. Interest income (including amortization of premiums and accretion of discounts) is accrued when earned. Dividend income is recorded on the ex-dividend date. Distributions received on securities that represent a return of capital or capital gain are recorded as a reduction of cost of investments and/or as a realized gain. The Fund's investment income, expenses (other than class specific expenses) and unrealized and realized gains and losses are allocated daily to each class of shares based upon the relative proportion of net assets of each class at the beginning of the day. Certain expenses are shared with The RBB Fund Trust (the "Trust"), a series trust of affiliated funds. Expenses incurred on behalf of a specific class, fund or fund family of the Company or Trust are charged directly to the class, fund or fund family (in proportion to net assets). Expenses incurred for all funds (such as director or professional fees) are charged to all funds in proportion to their average net assets of RBB and the Trust, or in such other manner as the Board deems fair or equitable. Expenses and fees, including investment advisory and administration fees, are accrued daily and taken into account for the purpose of determining the NAV of the Fund.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS — Dividends from net investment income and distributions from net realized capital gains, if any, are declared and paid at least annually to shareholders and recorded on the ex-dividend date. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP.

U.S. TAX STATUS — No provision is made for U.S. income taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

AUGUST 31, 2023

The Cayman Subsidiary is registered as an “exempted company” and the SPC as an “exempted segregated portfolio company” pursuant to the Companies Act (Revised) of the Cayman Islands (as amended). Each of the Cayman Subsidiary and the SPC has received an undertaking from the Governor in Cabinet of the Cayman Islands to the effect that, for a period of twenty years from the date of the undertaking, no act that thereafter is enacted in the Cayman Islands imposing any tax or duty to be levied on profits, income or on gains or appreciation, or any tax in the nature of estate duty or inheritance tax, will apply to any property comprised in or any income arising under the Cayman Subsidiary or the SPC, or to the shareholders thereof, in respect of any such property or income. For U.S. federal income tax purposes, the Cayman Subsidiary is treated as a “controlled foreign corporation” and the SPC is treated as disregarded from its owner, the Cayman Subsidiary, for U.S. income tax purposes. The Onshore Subsidiary is treated as an entity disregarded from its owner, the Fund, for U.S. income tax purposes.

SEC RULE 18F-4 — Effective August 19, 2022, the U.S. Securities and Exchange Commission (“SEC”) implemented Rule 18f-4 under the 1940 Act (“Rule 18f-4”), providing for the regulation of a registered investment company’s use of derivatives and certain related instruments. Among other things, Rule 18f-4 limits a fund’s derivatives exposure through a value-at-risk test and requires the adoption and implementation of a derivatives risk management program for certain derivatives users. The Fund, as a full derivatives user (as defined in Rule 18f-4), is subject to the full requirements of Rule 18f-4. The Fund is required to comply with Rule 18f-4 and has adopted procedures for investing in derivatives and other transactions in compliance with Rule 18f-4.

FOREIGN CURRENCY TRANSLATION — Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars based on the applicable exchange rates at the date of the last business day of the financial statement period. Purchases and sales of securities, interest income, dividends, variation margin received and expenses denominated in foreign currencies are translated into U.S. dollars at the exchange rates in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices of securities held. Such changes are included with the net realized gain or loss and change in unrealized appreciation or depreciation on investments in the Consolidated Statement of Operations. Other foreign currency transactions resulting in realized and unrealized gain or loss are reported separately as net realized gain or loss and change in unrealized appreciation or depreciation on foreign currencies in the Consolidated Statement of Operations.

CURRENCY RISK — Investment in foreign securities involves currency risk associated with securities that trade or are denominated in currencies other than the U.S. dollar and which may be affected by fluctuations in currency exchange rates. An increase in the strength of the U.S. dollar relative to a foreign currency may cause the U.S. dollar value of an investment in that country to decline. Foreign currencies also are subject to risks caused by inflation, interest rates, budget deficits and low savings rates, political factors and government controls. Forward foreign currency exchange contracts may limit potential gains from a favorable change in value between the U.S. dollar and foreign currencies. Unanticipated changes in currency pricing may result in poorer overall performance for the Fund than if it had not engaged in these contracts.

COMMODITY SECTOR RISK — Exposure to the commodities markets may subject the Fund to greater volatility than investments in traditional securities. The value of commodity-linked derivative instruments may be affected by changes in overall market movements, commodity index volatility, changes in interest rates or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs and international economic, political and regulatory developments. The prices of energy, industrial metals, precious metals, agriculture and livestock sector commodities may fluctuate widely due to factors such as changes in value, supply and demand and governmental regulatory policies. The commodity-linked securities in which the Fund invests may be issued by companies in the financial services sector, and events affecting the financial services sector may cause the Fund’s share value to fluctuate.

FOREIGN SECURITIES MARKET RISK — A substantial portion of the trades of the Fund are expected to take place on markets or exchanges outside the United States. There is no limit to the amount of assets of the Fund that may be committed to trading on foreign markets. The risk of loss in trading foreign futures and options on futures contracts can be substantial. Participation in foreign futures and options on futures contracts involves the execution and clearing of trades on, or subject to the rules of, a foreign board of trade or exchange. Some of these foreign markets, in contrast to U.S.

exchanges, are so-called principals' markets in which performance is the responsibility only of the individual counterparty with whom the trader has entered into a commodity interest transaction and not of the exchange or clearing corporation. In these kinds of markets, there is risk of bankruptcy or other failure or refusal to perform by the counterparty.

COUNTERPARTY RISK — The derivative contracts entered into by the Fund, the Cayman Subsidiary, Onshore Subsidiary or the SPC may be privately negotiated in the over-the-counter market. These contracts also involve exposure to credit risk, since contract performance depends in part on the financial condition of the counterparty. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease.

CREDIT RISK — Credit risk refers to the possibility that the issuer of the security or a counterparty in respect of a derivative instrument will not be able to satisfy its payment obligations to the Fund when due. Changes in an issuer's credit rating or the market's perception of an issuer's creditworthiness may also affect the value of the Fund's investment in that issuer. Securities rated in the four highest categories by the rating agencies are considered investment grade, but they may also have some speculative characteristics. Investment grade ratings do not guarantee that bonds will not lose value or default. In addition, the credit quality of securities may be lowered if an issuer's financial condition changes.

FUTURES CONTRACTS — The Fund uses futures contracts in the normal course of pursuing its investment objective. Upon entering into a futures contract, the Fund must deposit initial margin in addition to segregating cash or liquid assets sufficient to meet its obligation to purchase or provide securities, or to pay the amount owed at the expiration of an index-based futures contract. Such liquid assets may consist of cash, cash equivalents, liquid debt or equity securities or other acceptable assets. Pursuant to the futures contract, the Fund agrees to receive from, or pay to the broker, an amount of cash equal to the daily fluctuation in value of the contract. Such a receipt of payment is known as "variation margin" and is recorded by the Fund as an unrealized gain or loss. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract. Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with changes in the value of the underlying securities. Use of long futures contracts subjects the Fund to risk of loss in excess of the amount shown on the Consolidated Statement of Assets and Liabilities, up to the notional value of the futures contract. Use of short futures contracts subjects the Fund to potentially unlimited risk of loss.

FORWARD FOREIGN CURRENCY CONTRACTS — In the normal course of pursuing its investment objectives, the Fund is subject to foreign investment and currency risk. The Fund uses forward foreign currency contracts ("forward contracts") for purposes of hedging, duration management, as a substitute for securities, to increase returns, for currency hedging or risk management, or to otherwise help achieve the Fund's investment objective. These contracts are marked-to-market daily at the applicable translation rates. The Fund records realized gains or losses at the time the forward contract is closed. A forward contract is extinguished through a closing transaction or upon delivery of the currency or entering an offsetting contract. Risks may arise upon entering these contracts from the potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar or other currencies. The Fund's maximum risk of loss from counterparty credit risk related to forward foreign currency contracts is the fair value of the contract. The risk may be mitigated to some extent if a master netting arrangement between the Fund and the counterparty is in place and to the extent the Fund obtains collateral to cover the Fund's exposure to the counterparty.

CASH AND CASH EQUIVALENTS — Cash and cash equivalents are valued at cost plus accrued interest, which approximates market value.

OTHER — In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and, therefore, cannot be estimated; however, the Fund expects the risk of material loss from such claims to be remote.

2. INVESTMENT ADVISER AND OTHER SERVICES

Abbey Capital Limited serves as the investment adviser to the Fund, the Cayman Subsidiary, Onshore Subsidiary and the SPC. The Adviser allocates the assets of the Onshore Subsidiary and SPC (via the Cayman Subsidiary) to one or more Trading Advisers unaffiliated with the Adviser to manage. The Adviser also has the ultimate responsibility to oversee the Trading Advisers, and to recommend their hiring, termination and replacement, subject to approval by the Board. The Fund compensates the Adviser for its services at an annual rate based on the Fund's average daily net assets (the "Advisory Fee"), payable on a monthly basis in arrears, as shown in the following table. The Adviser compensates the Trading Advisers out of the Advisory Fee.

The Adviser has contractually agreed to waive its advisory fee and/or reimburse expenses in order to limit total annual Fund operating expenses (excluding certain items discussed below) to the rates ("Expense Caps") shown in the following table of the Fund's average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and could cause net total annual Fund operating expenses to exceed the Expense Caps as applicable: acquired fund fees and expenses, brokerage commissions, extraordinary expenses, interest and taxes. This contractual limitation is in effect until December 31, 2023 and may not be terminated without the approval of the Board. The Adviser may discontinue these arrangements at any time after December 31, 2023.

ADVISORY FEE	EXPENSE CAPS		
	CLASS A	CLASS I	CLASS C
1.77%	2.04%	1.79%	2.79%

During the current fiscal period, investment advisory fees accrued, waived and/or reimbursed were as follows:

GROSS ADVISORY FEES	WAIVERS AND/OR REIMBURSEMENTS	NET ADVISORY FEES
\$7,761,423	\$(495,671)	\$7,265,752

If at any time the Fund's total annual fund operating expenses (not including acquired fund fees and expenses, brokerage commissions, extraordinary items, interest or taxes) for a year are less than the relevant share class's Expense Cap, the Adviser may recoup any waived or reimbursed amounts from the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement.

As of the end of the reporting period, the Fund had amounts available for recoupment as follows:

EXPIRATION			
AUGUST 31, 2024	AUGUST 31, 2025	AUGUST 31, 2026	TOTAL
\$254,268	\$312,567	\$495,671	\$1,062,506

Aspect Capital Limited, Crabel Capital Management, LLC, Eclipse Capital Management, Inc., Revolution Capital Management, LLC, Tudor Investment Corporation and Welton Investment Partners, LLC each served as a Trading Adviser to the Fund during the period.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as administrator for the Fund. For providing administrative and accounting services, Fund Services is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

Fund Services serves as the Fund's transfer and dividend disbursing agent. For providing transfer agent services, Fund Services is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

U.S. Bank, N.A. (the "Custodian") provides certain custodial services to the Fund. The Custodian is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

Quasar Distributors, LLC (the "Distributor"), a wholly-owned broker-dealer subsidiary of Foreside Financial Group, LLC, serves as the principal underwriter and distributor of the Fund's shares pursuant to a Distribution Agreement with RBB.

For compensation amounts paid to Fund Services and the Custodian, please refer to the Consolidated Statement of Operations.

The Board has adopted a Plan of Distribution for the Class A Shares and Class C Shares (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Fund's distributor is entitled to receive from the Fund a distribution fee with respect to the Shares, which is accrued daily and paid monthly, of up to 0.25% on an annualized basis of the average daily net assets of the Class A Shares and up to 1.00% of the Class C Shares. The actual amount of such compensation under the Plan is agreed upon by the Board and by the Distributor. Because these fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. Amounts paid to the Distributor under the Plan may be used by the Distributor to cover expenses that are related to (i) the sale of the Shares, (ii) ongoing servicing and/or maintenance of the accounts of shareholders, and (iii) sub-transfer agency services, subaccounting services or administrative services related to the sale of the Shares, all as set forth in the Fund's 12b-1 Plan.

3. DIRECTOR AND OFFICER COMPENSATION

The Directors of the Company receive an annual retainer and meeting fees for meetings attended. An employee of Vigilant-Compliance, LLC serves as Chief Compliance Officer of the Company. Vigilant Compliance, LLC is compensated for the services provided to the Company. Employees of RBB serve as President, Chief Financial Officer, Chief Operating Officer, Secretary and Director of Marketing & Business Development of the Company. They are compensated by the Company for services provided. Certain employees of Fund Services serve as officers of the Company. They are not compensated by the Fund or the Company. For Director and Officer compensation amounts, please refer to the Consolidated Statement of Operations.

4. PURCHASES AND SALES OF INVESTMENT SECURITIES

During the current fiscal period, there were no purchases or sales of investment securities or long-term U.S. Government securities (excluding short-term investments and derivative transactions) by the Fund.

5. FEDERAL INCOME TAX INFORMATION

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund has determined that there was no effect on the consolidated financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

ABBEY CAPITAL MULTI ASSET FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AUGUST 31, 2023

As of August 31, 2023, the federal tax cost and aggregate gross unrealized appreciation and depreciation of investments held by the Fund were as follows^(a):

<u>FEDERAL TAX COST</u>	<u>UNREALIZED APPRECIATION</u>	<u>UNREALIZED (DEPRECIATION)</u>	<u>NET UNREALIZED APPRECIATION/ (DEPRECIATION)</u>
\$507,755,868	\$580,444	\$(41,621,827)	\$(41,041,383)

^(a) The difference between the book basis and tax basis cost and aggregate gross unrealized appreciation and depreciation of investments is attributable primarily to timing differences related to taxable income from a wholly-owned controlled foreign corporation.

Distributions to shareholders, if any, from net investment income and realized gains are determined in accordance with federal income tax regulations, which may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying consolidated financial statements. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on the tax treatment; temporary differences do not require such reclassification.

Permanent differences as of August 31, 2023, primarily attributable to disallowed book income from the Cayman Subsidiary, were reclassified to the following accounts:

<u>DISTRIBUTABLE EARNINGS/(LOSS)</u>	<u>PAID-IN CAPITAL</u>
\$21,434,269	\$(21,434,269)

As of August 31, 2023, the components of distributable earnings on a tax basis were as follows:

<u>UNDISTRIBUTED ORDINARY INCOME</u>	<u>UNDISTRIBUTED LONG-TERM CAPITAL GAINS</u>	<u>NET UNREALIZED APPRECIATION/ (DEPRECIATION)</u>	<u>CAPITAL LOSS CARRYFORWARDS</u>	<u>QUALIFIED LATE-YEAR LOSSES</u>	<u>OTHER TEMPORARY DIFFERENCES</u>
\$13,459,720	\$8,291,236	\$(26,828,220)	\$—	\$—	\$—

The differences between the book and tax basis components of distributable earnings relate principally to the timing of recognition of income and gains of the Cayman Subsidiary for federal income tax purposes.

The tax character of dividends and distributions paid during the fiscal years ended August 31, 2022 and August 31, 2023 was as follows:

	<u>ORDINARY INCOME</u>	<u>LONG-TERM GAINS</u>	<u>TOTAL</u>
2023	\$16,071,575	\$36,309	\$16,107,884
2022	\$7,325,763	\$3,605,357	\$10,931,120

The Fund is permitted to carry forward capital losses for an unlimited period. Capital losses that are carried forward will retain their character as either short-term or long-term capital losses. As of August 31, 2023, the Fund had no unlimited short-term or long-term capital loss carryovers to offset future capital gains.

6. NEW ACCOUNTING PRONOUNCEMENTS AND REGULATORY UPDATES

In June 2022, the FASB issued Accounting Standards Update 2022-03, which amends *Fair Value Measurement* (Topic 820): *Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions* (“ASU 2022-03”). ASU 2022-03 clarifies guidance for fair value measurement of an equity security subject to a contractual sale restriction and establishes new disclosure requirements for such equity securities. ASU 2022-03 is effective for fiscal years beginning after December 15, 2023 and for interim periods within those fiscal years, with early adoption permitted. Management is currently evaluating the impact of these amendments on the financial statements.

In October 2022, the SEC adopted a final rule relating to tailored shareholder reports for mutual funds and exchange-traded funds and fee information in investment company advertisements. The rule and form amendments will, among other things, require the Fund to transmit concise and visually engaging shareholder reports that highlight key information. The amendments will require that funds tag information in a structured data format and that certain more in-depth information be made available online and available for delivery free of charge to investors on request. The amendments became effective January 24, 2023. There is an 18-month transition period after the effective date of the amendments until the Fund is required to comply.

In December 2022, the FASB issued an Accounting Standards Update, ASU 2022-06, *Reference Rate Reform (Topic 848) – Deferral of the Sunset Date of Topic 848* (“ASU 2022-06”). ASU 2022-06 is an amendment to ASU 2020-04, which provided optional guidance to ease the potential accounting burden due to the discontinuation of the London Inter-Bank Offered Rate and other interbank-offered based reference rates and which was effective as of March 12, 2020 through December 31, 2022. ASU 2022-06 extends the effective period through December 31, 2024. Management is currently evaluating the impact, if any, of applying ASU 2022-06.

7. SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued and has determined that there was the following subsequent event:

ISRAEL-HAMAS CONFLICT RISK – The U.S.-designated terrorist group Hamas attacked Israel on October 7, 2023, resulting in an ensuing war in the region. Current hostilities and the potential for future hostilities may diminish the value, or cause significant volatility in the share price, of companies based in or having significant operations in Israel. The Israeli securities market may be closed for extended periods of time or trading on the Israeli securities market may be suspended altogether. How long the armed conflict and related events will last cannot be predicted.

ABBEY CAPITAL MULTI ASSET FUND

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Abbey Capital Multi Asset Fund
and Board of Directors of The RBB Fund, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated statement of assets and liabilities of Abbey Capital Multi Asset Fund (the "Fund") (one of the portfolios constituting The RBB Fund, Inc. (the "Company")), including the consolidated portfolio of investments, as of August 31, 2023, and the related consolidated statement of operations for the year then ended, the consolidated statements of changes in net assets for each of the two years in the period then ended, the consolidated financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the consolidated financial position of the Fund (one of the portfolios constituting The RBB Fund, Inc.) at August 31, 2023, the consolidated results of its operations for the year then ended, the consolidated changes in its net assets for each of the two years in the period then ended and its consolidated financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of the Company's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2023, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

SHAREHOLDER TAX INFORMATION (UNAUDITED)

Certain tax information regarding the Fund is required to be provided to shareholders based upon the Fund's income and distributions for the taxable year ended August 31, 2023. The information and distribution reported herein may differ from information and distributions taxable to the shareholders for the calendar year ended December 31, 2023. During the fiscal year ended August 31, 2023, the Fund paid no ordinary income dividends that are designated as "qualified dividend income" to its shareholders. Dividends from net investment income and short-term capital gains are treated as ordinary income dividends for federal income tax purposes.

The percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871(k)(2)(c) for the Fund is 6.87%.

Because the Fund's fiscal year is not the calendar year, another notification will be sent with respect to calendar year 2023. The second notification, which will reflect the amount, if any, to be used by calendar year taxpayers on their U.S. federal income tax returns, will be made in conjunction with Form 1099-DIV and will be mailed in January 2024.

Foreign shareholders will generally be subject to U.S. withholding tax on the amount of their ordinary income dividends. They will generally not be entitled to a foreign tax credit or deduction for the withholding taxes paid by the Fund, if any.

In general, dividends received by tax exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income for U.S. federal income tax purposes. However, some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual information reporting.

Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in the Fund.

OTHER INFORMATION (UNAUDITED)

PROXY VOTING

Policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities as well as information regarding how the Fund voted proxies relating to portfolio securities for the most recent twelve-month period ended June 30 are available without charge, upon request, by calling (844) 261-6484 and on the SEC's website at <http://www.sec.gov>.

QUARTERLY PORTFOLIO SCHEDULES

The Company files its complete schedule of portfolio holdings with the SEC for the first and third fiscal quarters of each fiscal year (quarters ended November 30 and May 31) as an exhibit to its report on Form N-PORT. The Company's Forms N-PORT are available on the SEC's website at <http://www.sec.gov>.

APPROVAL OF INVESTMENT ADVISORY AGREEMENTS AND TRADING ADVISORY AGREEMENTS

As required by the 1940 Act, the Board, including all of the Directors who are not "interested persons" of the Company, as that term is defined in the 1940 Act (the "Independent Directors"), considered the renewals of (1) the investment advisory agreement between Abbey Capital and the Company on behalf of the Fund (the "Investment Advisory Agreement"), (2) each of the separate advisory agreements between the Cayman Subsidiary, the Onshore Subsidiary and SPC (the "Subsidiaries") and Abbey Capital (collectively, the "Subsidiary Investment Advisory Agreements"), and (3) the trading advisory agreements between Abbey Capital and each of Aspect Capital Limited, Crabel Capital Management, LLC, Eclipse Capital Management, Inc., Revolution Capital Management, LLC, Tudor Investment Corporation and Welton Investment Partners LLC (each, a "Trading Adviser") (the "Trading Advisory Agreements"), at a meeting of the Board held on May 16-17, 2023 (the "Meeting"). At the Meeting, the Board, including all of the Independent Directors, approved the Investment Advisory Agreement, the Subsidiary Investment Advisory Agreements, and the Trading Advisory Agreements for an additional one-year term ending August 16, 2024. The Board's decision to approve the Investment Advisory Agreement, the Subsidiary Investment Advisory Agreements, and the Trading Advisory Agreements reflects the exercise of its business judgment to continue the existing arrangement. In approving the Investment Advisory Agreement, Subsidiary Investment Advisory Agreements, and the Trading Advisory Agreements, the Board considered information provided by Abbey Capital and each of the Trading Advisers with the assistance and advice of counsel to the Independent Directors and the Company.

In considering the renewal and approval of the Investment Advisory Agreement, the Subsidiary Investment Advisory Agreements, and the Trading Advisory Agreements, the Directors took into account all materials provided prior to and during the Meeting and at other meetings throughout the past year, the presentations made during the Meeting, and the discussions held during the Meeting. The Directors reviewed these materials with management of Abbey Capital, and discussed the aforementioned Agreements with counsel in executive sessions, at which no representatives of Abbey Capital, the Subsidiaries, or Trading Advisers were present. Among other things, the Directors considered (i) the nature, extent, and quality of services provided to the Fund by Abbey Capital and each Trading Adviser; (ii) descriptions of the experience and qualifications of the personnel providing those services; (iii) Abbey Capital's and the Trading Advisers' investment philosophies and processes; (iv) Abbey Capital's and the Trading Advisers' assets under management and client descriptions; (v) Abbey Capital's and the Trading Advisers' soft dollar commission and trade allocation policies, including information on the types of research and services obtained in connection with soft dollar commissions; (vi) Abbey Capital's and the Trading Advisers' advisory fee arrangements with the Company and other similarly managed clients, as applicable; (vii) Abbey Capital's and the Trading Advisers' compliance procedures; (viii) Abbey Capital's and the Trading Advisers' financial information and insurance coverage, as applicable, and Abbey Capital's profitability analysis; (ix) the extent to which economies of scale are relevant to the Fund; (x) a report prepared by Fuse Research Network, LLC comparing the Fund's management fees and total expense ratios to a group of mutual funds deemed comparable to the Fund based primarily on investment strategy similarity ("Peer Group") and comparing the performance of the Fund to the performance of its Peer Group; and (xi) a report comparing the performance of the Fund to the performance of its benchmark.

ABBEY CAPITAL MULTI ASSET FUND

OTHER INFORMATION (CONTINUED) (UNAUDITED)

As part of their review, the Directors considered the nature, extent and quality of the services provided by Abbey Capital and each Trading Adviser. The Directors concluded that Abbey Capital and each Trading Adviser had substantial resources to provide services to the Fund and the Subsidiaries, as applicable.

The Directors also considered the investment performance of the Fund, noting that the Fund had outperformed its benchmark, the S&P 500 Total Return Index, for the one-year, and since-inception periods ended March 31, 2023, and underperformed the benchmark for the three-month, and three-year periods ended March 31, 2023. The Directors considered the Fund's investment performance in light of its investment objective and investment strategies. The Board noted that the Fund's total return outperformed the median of its Peer Group for the one-year, three-year, and since-inception periods ended December 31, 2022, and underperformed the median of its Peer Group for the three-month period ended December 31, 2022.

The Board also considered the advisory fee rate payable by the Fund under the Investment Advisory Agreement. In this regard, information on the fees paid by the Fund and the Fund's total operating expense ratios (before and after fee waivers and expense reimbursements) were compared to similar information for mutual funds advised by other, unaffiliated investment advisory firms. The Directors noted that both the Fund's net advisory fee and Fund's total net expenses were above the median and in the 5th quintile (most expensive) of its Peer Group. The Directors also considered the fees payable to each Trading Adviser under the Trading Advisory Agreements and the information provided by Abbey Capital on the services provided by the different Trading Advisers. In this regard, the Directors noted that the fees for each Trading Adviser were payable by Abbey Capital. The Directors noted that Abbey Capital had contractually agreed to waive management fees and reimburse expenses through at least December 31, 2023 to limit total annual operating expenses to agreed upon levels for the Fund.

After reviewing the information regarding Abbey Capital's and the Trading Advisers' costs, profitability and economies of scale, and after considering the services to be provided by Abbey Capital and each Trading Adviser, the Directors concluded that the investment advisory fees to be paid by the Fund to Abbey Capital and the trading advisory fees to be paid by Abbey Capital to each Trading Adviser were fair and reasonable and that the Investment Advisory Agreement, the Subsidiary Investment Advisory Agreements, and Trading Advisory Agreements should be approved and continued for an additional one-year period ending August 16, 2024.

LIQUIDITY RISK MANAGEMENT PROGRAM

The Company has adopted and implemented a Liquidity Risk Management Program (the "Company Program") as required by rule 22e-4 under the 1940 Act. In accordance with the Company Program, the Adviser has adopted and implemented a liquidity risk management program (the "Adviser Program" and together with the Company Program, the "Programs") on behalf of the Fund. The Programs seek to assess, manage and review the Fund's Liquidity Risk. "Liquidity Risk" is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors' interest in the Fund.

The Board has appointed Vigilant Compliance, LLC ("Vigilant") as the program administrator for the Company Program and the Chief Risk Officer of the Adviser as the program administrator for the Adviser Program. The process of monitoring and determining the liquidity of the Fund's investments is supported by one or more third-party vendors.

At meetings held during the current fiscal period, the Board and its Regulatory Oversight Committee received and reviewed a written report (the "Report") of Vigilant and the Adviser concerning the operation of the Programs for the period from January 1, 2022 to December 31, 2022 (the "Period"). The Report summarized the operation of the Programs and the information and factors considered by Vigilant and the Adviser in reviewing the adequacy and effectiveness of the implementation of the Programs with respect to the Fund. Such information and factors included, among other things: (i) the methodology used to classify the liquidity of the Fund's portfolio investments and the Adviser's assessment that the Fund's strategy remained appropriate for an open-end mutual fund; (ii) analyses of the Fund's trading environment and reasonably anticipated trading size; (iii) that the Fund held primarily highly liquid assets (investments that the Fund anticipates can be converted to cash within 3 business days or less in current market

conditions without significantly changing their market value); (iv) that the Fund held a percentage of highly liquid assets above its highly liquid investment minimum at all times during the Period; (v) confirmation that the Fund did not breach the 15% maximum illiquid security threshold (investments that cannot be sold or disposed of in seven days or less in current market conditions without the sale of the investment significantly changing the market value of the investment) during the Period and the procedures for monitoring compliance with the limit; (vi) that the processes, technologies and third-party vendors used to assess, manage, and/or periodically review the Fund's Liquidity Risk functioned appropriately during the Period; and (vii) that the Programs operated adequately during the Period. The Report also described material changes made to the Adviser Program during the Period and indicated that there were no material changes made to the Company Program during the Period.

Based on the review, the Report concluded that the Programs were being implemented effectively and reasonably designed to assess and manage Liquidity Risk in the Fund's portfolio.

There can be no assurance that the Company Program or the Adviser Program will achieve its objectives under all circumstances in the future. Please refer to the Fund's prospectus for more information regarding the Fund's exposure to liquidity risk and other risks to which it may be subject.
