

ABBEY CAPITAL FUTURES STRATEGY FUND of THE RBB FUND, INC.

SEMI-ANNUAL REPORT

FEBRUARY 29, 2024 (UNAUDITED)

SEMI-ANNUAL INVESTMENT ADVISER'S REPORT FEBRUARY 29, 2024 (UNAUDITED)

Dear Shareholder,

The Abbey Capital Futures Strategy Fund (the "Fund") Class I Shares returned +1.77% net of fees for the 6-month fiscal period ended February 29, 2024.

Positive performance was driven by trading in equities and agricultural commodities. Major currencies was the sector which detracted most from Fund performance during the 6-month period. The Fund's core allocation to Diversified Trendfollowing ("Trendfollowing") strategies generated positive performance in aggregate, while the performance of the Fund's non-Trendfollowing allocation was also modestly positive in aggregate during the period.

The Fund may invest up to 25% of its total assets in Abbey Capital Master Offshore Fund Limited ("ACMOF"), a wholly-owned subsidiary of the Fund that invests substantially all of its assets in Abbey Capital Offshore Fund SPC ("ACOF"), which is a wholly-owned and controlled segregated portfolio company and a multi-adviser fund that invests in managed futures and foreign exchange contracts. The Fund may also invest a portion of its assets into Abbey Capital Onshore Series LLC ("ACOS"), a wholly-owned subsidiary of the Fund which is a multi-adviser fund that invests in managed futures and foreign exchange contracts.

Average Total Returns for the Periods Ended February 29, 2024 (unless otherwise noted)

| | 2024 YTD | 1 Year | SEP. 1, 2023 TO FEB. 29, 2024 | 5 Years Annualized | ANNUALIZED SINCE INCEPTION ON JULY 1, 2014 |

| Class A Shares* | 3.62% | -1.17% | 1.52% | 7.43% | 4.64% |
| Class A Shares (max load)* | -2.30% | -6.82% | -4.35% | 6.16% | 4.01% |
| Class C Shares** | 3.49% | -1.83% | 1.21% | 6.65% | 3.88% |
| ICE BofA 3-Month U.S. Treasury Bill Index*** | 0.84% | 5.22% | 2.69% | 1.97% | 1.38% |
| Barclay CTA Index*** | 2.09% | 1.59% | 1.45% | 4.93% | 2.64% |
| S&P 500® Total Return Index*** | 7.11% | 30.45% | 13.93% | 14.76% | 12.47% |

Barclay CTA numbers are based on the estimates available on the BarclayHedge website as of March 11, 2024 Source: Abbey Capital, Bloomberg and BarclayHedge.

Performance quoted is past performance and does not guarantee future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the returns quoted. Visit www.abbeycapital.com for returns updated daily. Call (US Toll Free) 1-844-261-6484 or (international callers) + 1-508-871-3276 for returns current to the most recent month-end.

Please note the above is shown for illustrative purposes only.

- * Class A Shares performance prior to its inception on August 29, 2014 is the performance of Class I Shares, adjusted for the Class A Shares expense ratio. There is a maximum sales charge (load) imposed on purchases (as a percentage of offering price) of 5.75% in Class A Shares.
- ** Class C Shares performance prior to its inception on October 6, 2015 is the performance of Class I Shares, adjusted for the Class C Shares expense ratio.
- *** The Barclay CTA Index is derived from data that is self-reported by investment managers based on the performance of privately managed funds. In contrast, the S&P 500® Total Return Index and the ICE BofA 3-Month U.S. Treasury Bill Index are comprised of publicly traded securities. As a result of these differences, these indices may not be directly comparable, and the table above is shown for illustrative purposes only.

SEMI-ANNUAL INVESTMENT ADVISER'S REPORT (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

Abbey Capital Limited (the "Adviser") has contractually agreed to waive its advisory fee and/or reimburse expenses in order to limit total annual fund operating expenses (excluding acquired fund fees and expenses, brokerage commissions, extraordinary items, interest or taxes) to 1.79%, 2.04% and 2.79% of the Fund's average daily net assets attributable to Class I Shares, Class A Shares, and Class C Shares, respectively. This contractual limitation is in effect until December 31, 2024, and may not be terminated without the approval of the Board of Directors of The RBB Fund, Inc. In addition, the Adviser may recoup any waived or reimbursed amounts from the Fund within three years from the date on which such waiver or reimbursement was made by the Adviser, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement. Without the expense limitation agreement, the expense ratios are 1.86%, 2.11% and 2.86% of the Fund's average daily net assets attributable to Class I Shares, Class A Shares, and Class C Shares, respectively, as stated in the Fund's current prospectus dated December 31, 2023 (and which may differ from the actual expense ratios for the period covered by this report). The quoted performance would have been lower without the expense limitation.

Please refer to the prospectus for further information on expenses and fees.

Performance Analysis

Performance for the Fund's Class I Shares over the 6-month period ended February 29, 2024 was positive. Trendfollowing managers led gains at the trading style level, while the non-Trendfollowing trading styles were modestly positive in aggregate.

Uncertainty was a very prominent theme in markets over this 6-month period. Much of this uncertainty related to expectations of central bank monetary policy. September and October saw global yields rise alongside some hawkish rhetoric from central banks. In October, the 10-year US Treasury yield hit 5% for the first time since 2007. However, in November an unexpectedly sharp slowdown in US inflation and a weaker-than-expected US payroll report prompted a significant repricing in interest rate expectations and a fall in yields. This more dovish outlook for US monetary policy was then acknowledged by the US Federal Reserve at its December meeting. In the first two months of 2024, trends in fixed income markets corrected again, with yields partially recovering from the declines in late 2023 as central banks attempted to temper market expectations for the timing of when interest rates may be cut.

This theme of uncertainty also influenced price moves in commodity markets. Global demand uncertainty, OPEC+ policy and the outbreak of conflict in the Middle East led to choppy price action in crude oil and distillate markets for much of the period. The moves in US Treasury yields saw the US Dollar fluctuate, leading to choppy price moves in metals. In addition, an unclear picture of the economic health of China impacted base metals markets. In contrast, shifts in the supply outlook led to some notable price trends in several agricultural commodity markets.

Despite this uncertain backdrop, equity markets rallied over the period. September and October were challenging months for global stocks, which fell in both months. Stock markets then rebounded in November when yields fell sharply as more dovish interest rate expectations set in. Equity markets rose each month from November to February. In February, some key global equity indices broke to new highs. Having exceeded previous peaks in January, both the S&P 500[®] Index and DAX 40 Index rallied to new record highs in February. The rally in Japanese equity markets also continued, with the Nikkei 225 rising to an all-time high, surpassing its previous record high set 34 years earlier.

September and October were positive months of performance for the Fund. Gains related to long US Dollar and short bond positions. The US Dollar rallied alongside higher US Treasury yields, which rose due to the more hawkish outlook for interest rates. Long positions in the US Dollar proved profitable, particularly against the Japanese Yen, which fell when policy changes from the Bank of Japan proved less significant than expected. Short positions in bonds, most notably US Treasuries, also contributed positively to returns.

SEMI-ANNUAL INVESTMENT ADVISER'S REPORT (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

In contrast, November and December were challenging months for Fund performance. The reversal of price trends in currency and bond markets led to losses for the Fund's Trendfollowing managers in particular. Long US Dollar exposures and short bond positions led to losses during the final two months of 2023. The downward price trends in equity markets also reversed. The Fund initially saw losses from short equity positions held in November. However, these losses were more than offset by gains from long positions in December.

January and February marked a return to positive performance for the Fund. Gains were concentrated in equities and agricultural commodities. Equity markets rallied in the first two months of 2024, with many global indices reaching all-time highs. Long positions in Japanese and US indices led gains in the sector. Within agricultural commodities, trends in certain markets at the end of 2023 continued and accelerated in some cases during the first two months of 2024. Gains in the sector stemmed from long exposures to cocoa, and short positions in soybeans, corn and wheat.

The Fund's best-performing sector over the period was equities. As mentioned above, gains in the sector were concentrated in December, January and February. The Fund transitioned from short to long positioning in the sector following the sharp change in rate expectations in November and held long positions consistently for the remainder of the period. Long positions in the NASDAQ 100 Index and Nikkei 225 Index led gains, with other long positions in US, Japanese and European indices contributing further. Trading in the FTSE 100 Index contract detracted from Fund performance.

Performance in agricultural commodities was also positive for the period. Gains were concentrated in January and February when price uptrends in cocoa markets accelerated. Further gains were realised from short wheat, soybean and corn exposures.

Energy was a sector which contributed modestly to Fund performance during the period. The sector included one of the Fund's best-performing contracts, the performance of which was mostly offset by multiple detracting contracts. Short natural gas positions produced positive performance, as US prices consistently fell over the period due to mild weather along with excess supply levels. In contrast, price trends in crude oil and distillate markets were very choppy over the period. Losses were realised in crude oil, gasoline and heating oil contracts.

Losses in currencies negatively impacted Fund performance during the period. The reversal of uptrends in the US Dollar in November and December was the primary driver of losses in the sector. Predominantly long US Dollar positions against several currencies, in particular the British Pound and Euro, led to losses in the sector. Partially offsetting gains arose from long US Dollar positions against the Japanese Yen, with the Japanese currency weakening as the Bank of Japan remained committed to its dovish monetary policy stance.

Metals was another sector that detracted from Fund performance during the period. Losses were concentrated in base metals, with smaller losses recorded in precious metals. Metals markets traded in a broad range over the 6-month period, with a lack of clear trends and several price reversals leading to a difficult trading environment in the sector for the Fund's Trendfollowing managers.

Smaller losses were realised in fixed income. The Fund posted gains from short positions in September and October as global yields rose. These gains unwound in November and December, however, with the Fund recording losses from its short positions as trends in fixed income markets reversed sharply on a more dovish outlook for global monetary policy.

SEMI-ANNUAL INVESTMENT ADVISER'S REPORT (CONCLUDED) FEBRUARY 29, 2024 (UNAUDITED)

APPENDIX

Index Descriptions

DAX 40 Index

The DAX 40 Index is a total return index of 40 selected German blue chip stocks traded on the Frankfurt Stock Exchange. The equities use free float shares in the index calculation. The index starts in December 1987.

FTSE 100 Index

The FTSE 100 Index is a capitalization-weighted index of the 100 most highly capitalized companies traded on the London Stock Exchange. The index starts in December 1983.

NASDAQ 100 Index

The NASDAQ-100 Index is a modified capitalization-weighted index of the 100 largest and most active non-financial domestic and international issues listed on the NASDAQ. The index starts in February 1985.

Nikkei 225 Index

The Nikkei-225 Stock Average is a price-weighted average of 225 top-rated Japanese companies listed in the First Section of the Tokyo Stock Exchange. The index starts in January 1970.

S&P 500 Index

The S&P 500 Index is an index of 500 US stocks chosen for market size, liquidity and industry grouping, among other factors. It is a capitalization-weighted index of 500 stocks. The index is designed to measure performance of the broad domestic economy through changes in its aggregate market value. The index starts in March 1957.

An investment in the Fund is speculative and involves substantial risk. It is possible that an investor may lose some or all of their investment. The Fund may invest up to 25% of its total assets in ACMOF, which invests substantially all of its assets in ACOF, which is a multi-adviser fund that invests in managed futures and foreign exchange. The Fund may also invest a portion of its assets into ACOS, which is a multi-adviser fund that invests in managed futures and foreign exchange. All investments in securities involve risk of the loss of capital. An investment in the Fund includes the risks inherent in an investment in securities, as well as specific risks associated with this open-ended investment product. Among the risks associated with investing in this Fund are Commodity Sector Risk, Counter-Party Risk, Credit Risk, Currency Risk, Manager and Management Risks, Subsidiary Risk, Tax Risk, Emerging Markets Risk, Leveraging Risk, Foreign Investment Risk, Fixed Income Securities Risks, Short Sale Risk and Portfolio Turnover Risks. The Fund may invest in or utilize derivative investments, futures contracts, and hedging strategies. One or more Trading Advisers, from time to time, may invest a substantial portion of the assets managed in a specific industry sector. As a result, the Fund's investment portfolio may be subject to greater risk and volatility than if investments had been made in the securities of a broader range of issuers. There can be no assurance that the Fund's strategy (hedging or otherwise) will be successful or that it will employ such strategies with respect to all or any portion of its portfolio. The value of the Fund's portfolio investments should be expected to fluctuate. Investing in managed futures is not suitable for all investors given its speculative nature and the high level of risk involved. The Fund is appropriate only for investors who can bear the risks associated with the product. This brief statement cannot disclose all of the risks and other factors necessary to evaluate an investment in the Fund. Investors are urged to take appropriate investment advice and to carefully consider their investment objectives, personal situation, and factors such as net worth, income, age, risk tolerance and liquidity needs before investing in the Fund. Before investing, investors should carefully consider the Fund's investment objectives, risks, tax considerations, sales charges and expenses.

Fund holdings and sector allocations are subject to change and should not be considered recommendations to buy or sell any security. Please refer to the Consolidated Portfolio of Investments in this report for a complete list of Fund holdings.

The Abbey Capital Futures Strategy Fund is distributed by Quasar Distributors, LLC.

This report is submitted for general information to the shareholders of the Fund. It is not authorized for distribution unless preceded or accompanied by a current prospectus for the Fund. Opinions expressed are subject to change at any time, are not guaranteed, and should not be considered investment advice.

The Barclay CTA Index is derived from data which is self-reported by investment managers based on the performance of privately managed funds. In contrast, the S&P 500[®] Total Return Index and the ICE BofA 3-Month U.S. Treasury Bill Index are comprised of publicly traded securities. As a result of these differences, these indices may not be directly comparable. Additionally, these indices are not available for direct investment and the above is shown for illustrative purposes only.

PERFORMANCE DATA (CONCLUDED) FEBRUARY 29, 2024 (UNAUDITED)

Barclay CTA Index

The Barclay CTA Index is a leading industry benchmark of representative performance of commodity trading advisors. There are currently 412 programs included in the calculation of the Barclay CTA Index for 2024. The Barclay CTA Index is equally weighted and rebalanced at the beginning of each year.

ICE BofA 3-Month U.S. Treasury Bill Index

The ICE BofA 3-Month U.S. Treasury Bill Index is an unmanaged market index of U.S. Treasury securities maturing in 90 days that assumes reinvestment of all income.

The S&P 500® Total Return Index

The S&P 500[®] Total Return Index is the total return version of the S&P 500[®] Index. Dividends are reinvested on a daily basis and all regular cash dividends are assumed reinvested in the index on the ex-dividend date.

A basis point is one hundredth of one percent.

Portfolio composition is subject to change. It is not possible to invest directly in an index.

FUND EXPENSE EXAMPLES FEBRUARY 29, 2024 (UNAUDITED)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, (if any) and (2) ongoing costs, including management fees, distribution and/or service (12b-1) fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from September 1, 2023 through February 29, 2024, and held for the entire period.

ACTUAL EXPENSES

The first section in the accompanying table provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second section of the accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) on purchase payments (if any). Therefore, the second section of the accompanying table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

| | Beginning Account Value September 1, 2023 | ENDING ACCOUNT VALUE FEBRUARY 29, 2024 | EXPENSES P DURING PERIOD ⁽¹⁾ | } | ANNUALIZED EXPENSE RATIO ⁽²⁾ | ACTUAL SIX- MONTH TOTAL INVESTMENT RETURNS FOR THE FUND |
|-------------------------|---|--|---|----|---|---|
| Actual | | | | | | |
| Class A Shares | \$1,000.00 | \$1,015.20 | \$ 10.2 | 22 | 2.04% | 1.52% |
| Class I Shares | 1,000.00 | 1,017.70 | 8.9 | 98 | 1.79% | 1.77% |
| Class C Shares | 1,000.00 | 1,012.10 | 13.9 | 96 | 2.79% | 1.21% |
| Hypothetical (5% return | before expenses) | | | | | |
| Class A Shares | \$1,000.00 | \$1,014.72 | \$ 10.2 | 22 | 2.04% | N/A |
| Class I Shares | 1,000.00 | 1,015.96 | 8.9 | 97 | 1.79% | N/A |
| Class C Shares | 1,000.00 | 1,010.99 | 13.9 | 95 | 2.79% | N/A |

Expenses are equal to the Funds' Class A Shares, Class I Shares, and Class C Shares annualized six-month expense ratios for the period September 1, 2023 through February 29, 2024, multiplied by the average account value over the period, multiplied by the number of days (182) in the most recent fiscal half-year, then divided by 366 to reflect the one half year period. The Fund's ending account values in the first section in the table are based on the actual six-month total investment return for the Fund's respective share classes.

⁽²⁾ Ratios reflect expenses waived by the Fund's investment adviser. Without these waivers, the Fund's expenses would have been higher and the ending account values would have been lower.

CONSOLIDATED PORTFOLIO HOLDINGS SUMMARY TABLE FEBRUARY 29, 2024 (UNAUDITED)

The following table presents a consolidated summary of the portfolio holdings of the Fund:

| | % of Net | |
|--|----------|-----------------|
| | ASSETS | VALUE |
| SHORT-TERM INVESTMENTS | 78.8% | \$2,141,325,130 |
| MONEY MARKET DEPOSIT ACCOUNT | 4.1 | 112,902,472 |
| OTHER ASSETS IN EXCESS OF LIABILITIES | | |
| (including futures and forward foreign currency contracts) | 17.1 | 466,374,151 |
| NET ASSETS | 100.0% | \$2,720,601,753 |

The Fund seeks to achieve its investment objective by allocating its assets between a "Managed Futures" strategy and a "Fixed Income" strategy.

As a result of the Fund's use of derivatives, the Fund may hold significant amounts of U.S. Treasuries or short-term investments. Portfolio holdings are subject to change at any time.

Refer to the Consolidated Portfolio of Investments for a detailed listing of the Fund's holdings.

CONSOLIDATED PORTFOLIO OF INVESTMENTS AS OF FEBRUARY 29, 2024 (UNAUDITED)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FEBRUARY 29, 2024 (UNAUDITED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The RBB Fund, Inc. ("RBB" or the "Company") was incorporated under the laws of the State of Maryland on February 29, 1988 and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. RBB is a "series fund," which is a mutual fund divided into separate portfolios. Each portfolio is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one portfolio is not deemed to be a shareholder of any other portfolio. Currently, RBB has sixty-four separate investment portfolios, including the Abbey Capital Futures Strategy Fund (the "Fund"), which commenced investment operations on July 1, 2014. The Fund is authorized to offer four classes of shares, Class A Shares, Class I Shares, Class C Shares and Class T Shares. Class A Shares are sold subject to a front-end maximum sales charge of 5.75%. Front-end sales charges may be reduced or waived under certain circumstances. Class T Shares are not currently available for sale.

RBB has authorized capital of one hundred billion shares of common stock of which 92.723 billion shares are currently classified into two hundred and thirty-four classes of common stock. Each class represents an interest in an active or inactive RBB investment portfolio.

The Fund seeks to achieve its investment objective by allocating its assets between a "Managed Futures" strategy and a "Fixed Income" strategy.

The Fund is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services – Investment Companies."

The end of the reporting period for the Fund is February 29, 2024, and the period covered by these Notes to Consolidated Financial Statements is the six months ended February 29, 2024 (the "current fiscal period").

CONSOLIDATION OF SUBSIDIARIES – The Managed Futures strategy is achieved by the Fund investing up to 25% of its total assets in Abbey Capital Master Offshore Fund Limited (the "Cayman Subsidiary"), a wholly-owned and controlled subsidiary of the Fund organized under the acts of the Cayman Islands. The Cayman Subsidiary invests all or substantially all of its assets in segregated portfolios of the Abbey Capital Offshore Fund SPC (the "SPC"), a wholly-owned subsidiary of the Cayman Subsidiary organized under the acts of the Cayman Islands. The Cayman Subsidiary serves solely as an intermediate entity through which the Fund invests in the SPC and makes no independent investment decisions and has no investment or other discretion over the Fund's investable assets.

The Fund may also invest a portion of its assets in segregated series of another wholly-owned subsidiary of the Fund, the Abbey Capital Onshore Series LLC (the "Onshore Subsidiary"), a Delaware series limited liability company.

The consolidated financial statements of the Fund include the financial statements of the Cayman Subsidiary, the Onshore Subsidiary and SPC. The Fund consolidates the results of subsidiaries in which the Fund holds a controlling financial interest. All inter-company accounts and transactions have been eliminated. As of the end of the reporting period, the net assets of the Cayman Subsidiary and SPC were \$616,696,214, which represented 22.67% of the Fund's net assets. As of the end of the reporting period, the net assets of the Onshore Subsidiary were \$733,230,047, which represented 26.95% of the Fund's net assets.

PORTFOLIO VALUATION — The Fund's net asset value ("NAV") is calculated once daily at the close of regular trading hours on the New York Stock Exchange ("NYSE") (generally 4:00 p.m. Eastern time) on each day the NYSE is open. Securities held by the Fund are valued using the closing price or the last sale price on a national securities exchange or the National Association of Securities Dealers Automatic Quotation System ("NASDAQ") market system where they are primarily traded. Fixed income securities are valued using an independent pricing service, which considers such factors as security prices, yields, maturities and ratings, and are deemed representative of market values at the close of the market. Forward exchange contracts are valued by interpolating between spot and forward currency rates as quoted by an independent pricing service. Futures contracts are generally valued using the settlement price determined by the relevant exchange. Options for which the primary market is a national securities exchange are valued at the last sale

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

price on the exchange on which they are traded, or, in the absence of any sale, will be valued at the mean of the last bid and ask prices prior to the market close. Options not traded on a national securities exchange are valued at the last quoted bid price for long option positions and the closing ask price for short option positions. If market quotations are unavailable or deemed unreliable, securities will be valued by the Valuation Designee (as defined below) in accordance with procedures adopted by the Company's Board of Directors (the "Board"). Relying on prices supplied by pricing services or dealers or using fair valuation may result in values that are higher or lower than the values used by other investment companies and investors to price the same investments.

The Board has adopted a pricing and valuation policy for use by the Fund and its Valuation Designee (as defined below) in calculating the Fund's NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Fund has designated Abbey Capital Limited (the "Adviser" or "Abbey Capital") as its "Valuation Designee" to perform all of the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable.

FAIR VALUE MEASUREMENTS — The inputs and valuation techniques used to measure the fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 Prices are determined using quoted prices in active markets for identical securities.
- Level 2 Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Prices are determined using significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of the end of the reporting period, in valuing the Fund's investments carried at fair value:

| | TOTAL | LEVEL 1 | LEVEL 2 | LEVEL 3 |
|------------------------------------|---------------------|---------------------|------------------|---------|
| Short-Term Investments | \$ 2,141,325,130 | \$ 2,141,325,130 | \$ _ | \$ _ |
| Commodity Contracts | | | | |
| Futures Contracts | 36,110,800 | 36,110,800 | _ | _ |

| Interest Rate Contracts | | | | |
| Futures Contracts | 8,983,743 | 8,983,743 | | |
| Total Assets | \$ 2,276,025,596 | \$ 2,265,705,723 | \$ 10,319,873 | \$ |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

| | TOTAL | LEVEL 1 | LEVEL 2 | LEVEL 3 |
|------------------------------------|--------------------|--------------------|--------------------|---------|
| Commodity Contracts | | | | |
| Futures Contracts | \$ (24,158,812) | \$ (24,158,812) | \$ _ | \$ _ |
| Equity Contracts | | | | |
| Futures Contracts | (2,093,551) | (2,093,551) | _ | _ |
| Foreign Currency Contracts | | | | |
| Forward Foreign Currency Contracts | (13,793,674) | _ | (13,793,674) | _ |
| Futures Contracts | (1,504,725) | (1,504,725) | _ | _ |
| Interest Rate Contracts | | | | |
| Futures Contracts | (4,850,931) | (4,850,931) | _ | _ |
| Total Liabilities | \$ (46,401,693) | \$ (32,608,019) | \$ (13,793,674) | \$ _ |

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles ("U.S. GAAP") requires the Fund to present a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. Transfers in and out between levels are based on values at the end of the period. A reconciliation of Level 3 investments is presented only when the Fund had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for all Level 3 transfers are disclosed if the Fund had an amount of total Level 3 transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

During the current fiscal period, the Fund had no Level 3 transfers.

DISCLOSURES ABOUT DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES — Derivative instruments are defined as financial instruments whose value and performance are based on the value and performance of another security or financial instrument. Derivative instruments that the Fund used during the period include forward foreign currency contracts and futures contracts.

During the current fiscal period, the Fund used long and short contracts on U.S. and foreign equity market indices, U.S. and foreign government bonds, foreign currencies, interest rates and commodities (through investment in the Cayman Subsidiary, the SPC and the Onshore Subsidiary), to gain investment exposure in accordance with its investment objective.

The following tables provide quantitative disclosures about fair value amounts of, and gains and losses on, the Fund's derivative instruments as of and for the current fiscal period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

The following tables list the fair values and location on the Consolidated Statement of Assets and Liabilities of the Fund's derivative holdings as of the end of the reporting period, grouped by derivative type and primary risk exposure category by contract type.

| DERIVATIVE TYPE | CONSOLIDATED STATEMENT OF ASSETS AND LIABILITIES LOCATION | | EQUITY ONTRACTS | | Interest Rate Contracts | | Foreign Currency Ontracts | | OMMODITY CONTRACTS | | TOTAL |

During the current fiscal period, the Fund's quarterly average volume of derivatives was as follows:

| | | | FORWARD FOREIGN |
|-----------------|-------------------|-----------------------|-----------------------|
| | | FORWARD FOREIGN | CURRENCY |
| LONG FUTURES | SHORT FUTURES | CURRENCY | Contracts — |
| NOTIONAL | NOTIONAL | CONTRACTS — PAYABLE | RECEIVABLE |
| AMOUNT | AMOUNT | (VALUE AT TRADE DATE) | (VALUE AT TRADE DATE) |
| \$3,856,417,817 | \$(7,184,944,550) | \$(4,223,721,867) | \$4,224,971,317 |

For financial reporting purposes, the Fund does not offset fair value amounts recognized for derivative instruments and fair value amounts recognized for the right to reclaim cash collateral (receivables) or the obligation to return cash collateral (payables) arising from derivative instruments recognized at fair value executed with the same counterparty under a master netting arrangement.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

The following is a summary of financial and derivative instruments that are subject to enforceable master netting agreements (or similar arrangements) and collateral received and pledged in connection with the master netting agreements (or similar arrangements).

| | | Gross Am Offset in Co Statem Assets and | ONSOLIDATED | | | Gross Am Offset in Co Statem Assets and | ONSOLIDATED | |
|--|--|--|------------------------|-----------------------------|--|--|--------------------------------------|------------------------------|
| Description | GROSS AMOUNT PRESENTED IN THE CONSOLIDATED STATEMENT OF ASSETS AND LIABILITIES | Financial Instruments | Collateral Received | Net count ⁽¹⁾ | GROSS AMOUNT PRESENTED IN THE CONSOLIDATED STATEMENT OF ASSETS AND LIABILITIES | Financial Instruments | Collateral Pledged ⁽²⁾ | Net Amount ⁽³⁾ |
| | | Ass | ETS | | | Liabii | LITIES | |
| Forward Foreign Currency Contracts | \$ 10,319,873 | \$(10,319,873) | \$ – | \$ _ | \$ 13,793,674 | \$(10,319,873) | \$ (3,473,801) | \$ - |

- (1) Net amount represents the net amount receivable from the counterparty in the event of default.
- (2) Actual collateral pledged may be more than the amount shown.
- (3) Net amount represents the net amount payable to the counterparty in the event of default.

USE OF ESTIMATES — The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those differences could be significant.

INVESTMENT TRANSACTIONS, INVESTMENT INCOME AND EXPENSES — The Fund records security transactions based on trade date for financial reporting purposes. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes in determining realized gains and losses on investments. Interest income (including amortization of premiums and accretion of discounts) is accrued when earned. Dividend income is recorded on the ex-dividend date. Distributions received on securities that represent a return of capital or capital gain are recorded as a reduction of cost of investments and/or as a realized gain. The Fund's investment income, expenses (other than class specific expenses) and unrealized and realized gains and losses are allocated daily to each class of shares based upon the relative proportion of net assets of each class at the beginning of the day. Certain expenses are shared with The RBB Fund Trust (the "Trust"), a series trust of affiliated funds. Expenses incurred on behalf of a specific class, fund or fund family of the Company or Trust are charged directly to the class, fund or fund family (in proportion to net assets). Expenses incurred for all funds (such as director or professional fees) are charged to all funds in proportion to their average net assets of RBB and the Trust, or in such other manner as the Board deems fair or equitable. Expenses and fees, including investment advisory and administration fees, are accrued daily and taken into account for the purpose of determining the NAV of the Fund.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS — Dividends from net investment income and distributions from net realized capital gains, if any, are declared and paid at least annually to shareholders and recorded on the ex-dividend date. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP.

U.S. TAX STATUS — No provision is made for U.S. income taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

The Cayman Subsidiary is registered as an "exempted company" and the SPC as an "exempted segregated portfolio company" pursuant to the Companies Act (Revised) of the Cayman Islands (as amended). Each of the Cayman Subsidiary and the SPC has received an undertaking from the Governor in Cabinet of the Cayman Islands to the effect that, for a period of twenty years from the date of the undertaking, no act that thereafter is enacted in the Cayman Islands imposing any tax or duty to be levied on profits, income or on gains or appreciation, or any tax in the nature of estate duty or inheritance tax, will apply to any property comprised in or any income arising under the Cayman Subsidiary or the SPC, or to the shareholders thereof, in respect of any such property or income. For U.S. federal income tax purposes, the Cayman Subsidiary is treated as a "controlled foreign corporation." The SPC is treated as an entity disregarded from its owner, the Cayman Subsidiary, for U.S. income tax purposes. The Onshore Subsidiary is treated as an entity disregarded from its owner, the Fund, for U.S. income tax purposes.

SEC RULE 18F-4 — Effective August 19, 2022, the U.S. Securities and Exchange Commission ("SEC") implemented Rule 18f-4 under the 1940 Act ("Rule 18f-4"), providing for the regulation of a registered investment company's use of derivatives and certain related instruments. Among other things, Rule 18f-4 limits a fund's derivatives exposure through a value-at-risk test and requires the adoption and implementation of a derivatives risk management program for certain derivatives users. The Fund, as a full derivatives user (as defined in Rule 18f-4), is subject to the full requirements of Rule 18f-4. The Fund is required to comply with Rule18f-4 and has adopted procedures for investing in derivatives and other transactions in compliance with Rule 18f-4.

FOREIGN CURRENCY TRANSLATION — Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars based on the applicable exchange rates at the date of the last business day of the financial statement period. Purchases and sales of securities, interest income, dividends, variation margin received and expenses denominated in foreign currencies are translated into U.S. dollars at the exchange rates in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices of securities held. Such changes are included with the net realized gain or loss and change in unrealized appreciation or depreciation on investments in the Consolidated Statement of Operations. Other foreign currency transactions resulting in realized and unrealized gain or loss are reported separately as net realized gain or loss and change in unrealized appreciation or depreciation on foreign currencies in the Consolidated Statement of Operations.

CURRENCY RISK —Investment in foreign securities involves currency risk associated with securities that trade or are denominated in currencies other than the U.S. dollar and which may be affected by fluctuations in currency exchange rates. An increase in the strength of the U.S. dollar relative to a foreign currency may cause the U.S. dollar value of an investment in that country to decline. Foreign currencies also are subject to risks caused by inflation, interest rates, budget deficits and low savings rates, political factors and government controls. Forward foreign currency exchange contracts may limit potential gains from a favorable change in value between the U.S. dollar and foreign currencies. Unanticipated changes in currency pricing may result in poorer overall performance for the Fund than if it had not engaged in these contracts.

COMMODITY SECTOR RISK — Exposure to the commodities markets may subject the Fund to greater volatility than investments in traditional securities. The value of commodity-linked derivative instruments may be affected by changes in overall market movements, commodity index volatility, changes in interest rates or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs and international economic, political and regulatory developments. The prices of energy, industrial metals, precious metals, agriculture and livestock sector commodities may fluctuate widely due to factors such as changes in value, supply and demand and governmental regulatory policies. The commodity-linked securities in which the Fund invests may be issued by companies in the financial services sector, and events affecting the financial services sector may cause the Fund's share value to fluctuate.

FOREIGN SECURITIES MARKET RISK — A substantial portion of the trades of the Fund are expected to take place on markets or exchanges outside the United States. There is no limit to the amount of assets of the Fund that may be committed to trading on foreign markets. The risk of loss in trading foreign futures and options on futures contracts

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

can be substantial. Participation in foreign futures and options on futures contracts involves the execution and clearing of trades on, or subject to the rules of, a foreign board of trade or exchange. Some of these foreign markets, in contrast to U.S. exchanges, are so-called principals' markets in which performance is the responsibility only of the individual counterparty with whom the trader has entered into a commodity interest transaction and not of the exchange or clearing corporation. In these kinds of markets, there is risk of bankruptcy or other failure or refusal to perform by the counterparty.

COUNTERPARTY RISK — The derivative contracts entered into by the Fund, the SPC or Onshore Subsidiary may be privately negotiated in the over-the-counter market. These contracts also involve exposure to credit risk, since contract performance depends in part on the financial condition of the counterparty. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease.

CREDIT RISK — Credit risk refers to the possibility that the issuer of the security or a counterparty in respect of a derivative instrument will not be able to satisfy its payment obligations to the Fund when due. Changes in an issuer's credit rating or the market's perception of an issuer's creditworthiness may also affect the value of the Fund's investment in that issuer. Securities rated in the four highest categories by the rating agencies are considered investment grade, but they may also have some speculative characteristics. Investment grade ratings do not guarantee that bonds will not lose value or default. In addition, the credit quality of securities may be lowered if an issuer's financial condition changes.

OPTIONS — An option on a futures contract gives the purchaser the right, in exchange for a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. The Fund may use futures contracts and related options for: bona fide hedging; attempting to offset changes in the value of securities held or expected to be acquired or be disposed of; attempting to minimize fluctuations in foreign currencies; attempting to gain exposure to a particular market, index or instrument; or other risk management purposes. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options are accounted for in the same manner as other securities owned. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

OPTIONS WRITTEN — The Fund may enter into options written for: bona fide hedging; attempting to offset changes in the value of securities held or expected to be acquired or be disposed of; attempting to minimize fluctuations in foreign currencies; attempting to gain exposure to a particular market, index or instrument; or other risk management purposes. Such options may relate to particular securities or domestic stock indices, and may or may not be listed on exchanges regulated by the Commodity Futures Trading Commission or on other non-U.S. exchanges. An option on a futures contract gives the purchaser the right, in return for the premium paid, to assume a position in the contract (a long position if the option is a call and a short position if the option is a put) at a specified exercise price at any time during the option exercise period. The writer of the option is required upon exercise to assume a short futures position (if the option is a call) or a long futures position (if the option is a put). Upon exercise of the option, the accumulated cash balance in the writer's futures margin account is delivered to the holder of the option. That balance represents the amount by which the market price of the futures contract at exercise exceeds, in the case of a call, or is less than, in the case of a put, the exercise price of the option. The maximum risk of loss associated with writing put options is limited to the exercised fair value of the option contract. The maximum risk of loss associated with writing call options is potentially unlimited. The Fund also has the additional risk of being unable to enter into a closing transaction at an acceptable price if a liquid secondary market does not exist. The Fund also may write over-the-counter options where completing the obligation depends upon the credit standing of the other party. Option contracts also involve the risk that they may result in loss due to unanticipated developments in market conditions or other causes. Written options are initially recorded as liabilities to the extent of premiums received and subsequently marked to market to reflect the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

current value of the option written. Gains or losses are realized when the option transaction expires or closes. When an option is exercised, the proceeds on sales for a written call option or the purchase cost for a written put option is adjusted by the amount of the premium received. Listed option contracts present minimal counterparty credit risk since they are exchange traded and the exchange's clearinghouse, as counterparty to all exchange-traded options, guarantees the options against default. As of the end of the reporting period, the Fund has no written options.

FUTURES CONTRACTS — The Fund uses futures contracts in the normal course of pursuing its investment objective. Upon entering into a futures contract, the Fund must deposit initial margin in addition to segregating cash or liquid assets sufficient to meet its obligation to purchase or provide securities, or to pay the amount owed at the expiration of an index-based futures contract. Such liquid assets may consist of cash, cash equivalents, liquid debt or equity securities or other acceptable assets. Pursuant to the futures contract, the Fund agrees to receive from, or pay to the broker, an amount of cash equal to the daily fluctuation in value of the contract. Such a receipt of payment is known as "variation margin" and is recorded by the Fund as an unrealized gain or loss. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract. Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with changes in the value of the underlying securities. Use of long futures contracts subjects the Fund to risk of loss in excess of the amount shown on the Consolidated Statement of Assets and Liabilities, up to the notional value of the futures contract. Use of short futures contracts subjects the Fund to potentially unlimited risk of loss.

FORWARD FOREIGN CURRENCY CONTRACTS — In the normal course of pursuing its investment objectives, the Fund is subject to foreign investment and currency risk. The Fund uses forward foreign currency contracts ("forward contracts") for purposes of hedging, duration management, as a substitute for securities, to increase returns, for currency hedging or risk management, or to otherwise help achieve the Fund's investment objective. These contracts are marked-to-market daily at the applicable translation rates. The Fund records realized gains or losses at the time the forward contract is closed. A forward contract is extinguished through a closing transaction or upon delivery of the currency or entering an offsetting contract. Risks may arise upon entering these contracts from the potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar or other currencies. The Fund's maximum risk of loss from counterparty credit risk related to forward foreign currency contracts is the fair value of the contract. The risk may be mitigated to some extent if a master netting arrangement between the Fund and the counterparty is in place and to the extent the Fund obtains collateral to cover the Fund's exposure to the counterparty.

CASH AND CASH EQUIVALENTS — Cash and cash equivalents are valued at cost plus accrued interest, which approximates market value.

OTHER — In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and, therefore, cannot be estimated; however, the Fund expects the risk of material loss from such claims to be remote.

2. Investment Adviser and Other Services

Abbey Capital Limited serves as the investment adviser to the Fund and the Cayman Subsidiary, Onshore Subsidiary and SPC. The Adviser allocates the assets of the Onshore Subsidiary and SPC (via the Cayman Subsidiary) to one or more Trading Advisers unaffiliated with the Adviser to manage. The Adviser also has the ultimate responsibility to oversee the Trading Advisers, and to recommend their hiring, termination and replacement, subject to approval by the Board. The Fund compensates the Adviser for its services at an annual rate based on the Fund's average daily net assets (the "Advisory Fee"), payable on a monthly basis in arrears, as shown in the following table. The Adviser compensates the Trading Advisers out of the Advisory Fee.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

The Adviser has contractually agreed to waive its advisory fee and/or reimburse expenses in order to limit total annual Fund operating expenses (excluding certain items discussed below) to the rates ("Expense Caps") shown in the following table of the Fund's average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and could cause net total annual Fund operating expenses to exceed the Expense Caps as applicable: acquired fund fees and expenses, brokerage commissions, extraordinary expenses, interest and taxes. This contractual limitation is in effect until December 31, 2024 and may not be terminated without the approval of the Board. The Adviser may discontinue these arrangements at any time after December 31, 2024.

| ADVISORY Fee | | Expen | SE CAPS | |
|-----------------|---------|---------|---------|---------|
| | CLASS A | CLASS I | CLASS C | CLASS T |
| 1.77% | 2.04% | 1.79% | 2.79% | 2.04% |

During the current fiscal period, investment advisory fees accrued, waived and/or reimbursed were as follows:

| GROSS Advisory Fees | WAIVERS AND/OR REIMBURSEMENTS | NET Advisory Fees |
|---------------------------|----------------------------------|-------------------------|
| \$23,514,744 | \$(813,499) | \$22,701,245 |

If at any time the Fund's total annual fund operating expenses (not including acquired fund fees and expenses, brokerage commissions, extraordinary items, interest or taxes) for a year are less than the relevant share class's Expense Cap, the Adviser may recoup any waived or reimbursed amounts from the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund to exceed expense limitations that were in effect at the time of the waiver or reimbursement.

As of the end of the reporting period, the Fund had amounts available for recoupment as follows:

| EXPIRATION | | | | |
|------------|-------------|-------------|------------|-------------|
| AUGUST 31, | AUGUST 31, | AUGUST 31, | AUGUST 31, | |
| 2024 | 2025 | 2026 | 2027 | TOTAL |
| \$491,544 | \$1,164,300 | \$1.932.271 | \$813,499 | \$4,401,614 |

Aspect Capital Limited, Crabel Capital Management, LLC, Eclipse Capital Management, Inc., Episteme Capital Partners (UK), LLP, Graham Capital Management, LP, P/E Global, LLC, Revolution Capital Management, LLC, R.G. Niederhoffer Capital Management, Inc., Systematica Investments Limited (acting as the general partner of Systematica Investments LP), Tudor Investment Corporation, Welton Investment Partners, LLC and Winton Capital Management Limited each served as a Trading Adviser to the Fund during the current fiscal period.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as administrator for the Fund. For providing administrative and accounting services, Fund Services is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

Fund Services serves as the Fund's transfer and dividend disbursing agent. For providing transfer agent services, Fund Services is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

U.S. Bank, N.A. (the "Custodian") provides certain custodial services to the Fund. The Custodian is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

Quasar Distributors, LLC (the "Distributor"), a wholly-owned broker-dealer subsidiary of Foreside Financial Group, LLC, serves as the principal underwriter and distributor of the Fund's shares pursuant to a Distribution Agreement with RBB.

The Board has adopted a Plan of Distribution for the Class A Shares, Class C Shares and Class T Shares (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Fund's distributor is entitled to receive from the Fund a distribution fee with respect to the Shares, which is accrued daily and paid monthly, of up to 0.25% on an annualized basis of the average daily net assets of the Class A Shares and Class T Shares and up to 1.00% of the Class C Shares. The actual amount of such compensation under the Plan is agreed upon by the Board and by the Distributor. Because these fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. Amounts paid to the Distributor under the Plan may be used by the Distributor to cover expenses that are related to (i) the sale of the Shares, (ii) ongoing servicing and/or maintenance of the accounts of shareholders, and (iii) sub-transfer agency services, subaccounting services or administrative services related to the sale of the Shares, all as set forth in the Fund's 12b-1 Plan.

For compensation amounts paid to Fund Services and the Custodian, please refer to the Consolidated Statement of Operations.

3. DIRECTOR AND OFFICER COMPENSATION

The Directors of the Company receive an annual retainer and meeting fees for meetings attended. An employee of Vigilant Compliance, LLC serves as Chief Compliance Officer of the Company. Vigilant Compliance, LLC is compensated for the services provided to the Company. Employees of RBB serve as President, Chief Financial Officer, Chief Operating Officer, Secretary and Director of Marketing & Business Development of the Company. They are compensated by the Company for services provided. Certain employees of Fund Services serve as officers of the Company. They are not compensated by the Fund or the Company. For Director and Officer compensation amounts, please refer to the Consolidated Statement of Operations.

4. Purchases and Sales of Investment Securities

During the current fiscal period, there were no purchases or sales of investment securities or long-term U.S. Government securities (excluding short-term investments and derivative transactions) by the Fund.

5. FEDERAL INCOME TAX INFORMATION

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund has determined that there was no effect on the consolidated financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

As of August 31, 2023, the federal tax cost and aggregate gross unrealized appreciation and depreciation of investments held by the Fund were as follows^(a):

MET

| FEDERAL TAX COST | UNREALIZED Appreciation | UNREALIZED (DEPRECIATION) | UNREALIZED APPRECIATION/ (DEPRECIATION) |
|---------------------|----------------------------|---------------------------|---|
| \$2,946,372,094 | \$46,791,957 | \$(426,952,967) | \$(380,161,010) |

⁽a) The difference between the book basis and tax basis cost and aggregate gross unrealized appreciation and depreciation of investments is attributable primarily to timing differences related to taxable income from a wholly-owned controlled foreign corporation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 29, 2024 (UNAUDITED)

Distributions to shareholders, if any, from net investment income and realized gains are determined in accordance with federal income tax regulations, which may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying consolidated financial statements. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on the tax treatment; temporary differences do not require such reclassification.

Permanent differences as of August 31, 2023, primarily attributable to disallowed book income from the Cayman Subsidiary, were reclassified to the following accounts:

| DISTRIBUTABLE EARNINGS/(LOSS) | Paid-In Capital | | |
|-------------------------------|--------------------|--|--|
| \$61,531,137 | \$(61,531,137) | | |

As of August 31, 2023, the components of distributable earnings/(deficits) on a tax basis were as follows:

| Undistributed Ordinary Income | UNDISTRIBUTED LONG-TERM CAPITAL GAINS | NET UNREALIZED APPRECIATION/ (DEPRECIATION) | CAPITAL LOSS CARRYFORWARDS | QUALIFIED LATE-YEAR LOSSES | OTHER TEMPORARY DIFFERENCES |
|-------------------------------------|---|---|-------------------------------|----------------------------------|-----------------------------|
| \$31,161,514 | \$ — | \$(388,866,834) | \$ — | \$81,072,075 | \$ — |

The differences between the book and tax basis components of distributable earnings/(deficits) relate principally to the timing of recognition of income and gains of the Cayman Subsidiary for federal income tax purposes.

The tax character of dividends and distributions paid during the fiscal year ended August 31, 2023 was as follows:

| Ordinary | LONG-TERM | |
|---------------|--------------|---------------|
| INCOME | GAINS | TOTAL |
| \$301.432.418 | \$67.524.669 | \$368.957.087 |

Pursuant to federal income tax rules applicable to regulated investment companies, the Fund may elect to treat certain capital losses between November 1 and August 31 and late year ordinary losses ((i) ordinary losses between January 1 and August 31, and (ii) specified ordinary and currency losses between November 1 and August 31) as occurring on the first day of the following tax year. For the fiscal year ended August 31, 2023, any amount of losses elected within the tax return will not be recognized for federal income tax purposes until September 1, 2023. The Fund deferred qualified late-year losses of \$81,072,075 which will be treated as arising on the first business day of the following fiscal year.

The Fund is permitted to carry forward capital losses for an unlimited period. Capital losses that are carried forward will retain their character as either short-term or long-term capital losses. As of August 31, 2023, the Fund had no unlimited short-term or long-term capital loss carryovers to offset future capital gains.

6. NEW ACCOUNTING PRONOUNCEMENTS AND REGULATORY UPDATES

In June 2022, the FASB issued Accounting Standards Update 2022-03, which amends *Fair Value Measurement* (Topic 820): *Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions* ("ASU 2022-03"). ASU 2022-03 clarifies guidance for fair value measurement of an equity security subject to a contractual sale restriction and establishes new disclosure requirements for such equity securities. ASU 2022-03 is effective for fiscal years beginning after December 15, 2023 and for interim periods within those fiscal years, with early adoption permitted. Management is currently evaluating the impact of these amendments on the financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONCLUDED) FEBRUARY 29, 2024 (UNAUDITED)

In October 2022, the SEC adopted a final rule relating to tailored shareholder reports for mutual funds and exchange-traded funds and fee information in investment company advertisements. Beginning in July 2024, the Fund will be required to transmit concise and visually engaging shareholder reports that highlight key information. The Fund will also be required to tag information in a structured data format and that certain more in-depth information be made available online and available for delivery free of charge to investors on request.

In December 2022, the FASB issued an Accounting Standards Update, ASU 2022-06, *Reference Rate Reform* (*Topic 848*) – *Deferral of the Sunset Date of Topic 848* ("ASU 2022-06"). ASU 2022-06 is an amendment to ASU 2020-04, which provided optional guidance to ease the potential accounting burden due to the discontinuation of the London Inter-Bank Offered Rate and other interbank-offered based reference rates and which was effective as of March 12, 2020 through December 31, 2022. ASU 2022-06 extends the effective period through December 31, 2024. Management is currently evaluating the impact, if any, of applying ASU 2022-06.

7. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued and has determined that there was the following subsequent event:

Effective April 29, 2024 (subsequent to the end of the reporting period), QMS Capital Management LP ("QMS Capital") serves as a Trading Adviser to the Fund.

OTHER INFORMATION (UNAUDITED)

PROXY VOTING

Policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities as well as information regarding how the Fund voted proxies relating to portfolio securities for the most recent twelve-month period ended June 30 are available without charge, upon request, by calling (844) 261-6484 and on the SEC's website at http://www.sec.gov.

QUARTERLY PORTFOLIO SCHEDULES

The Company files its complete schedule of portfolio holdings with the SEC for the first and third fiscal quarters of each fiscal year (quarters ended November 30 and May 31) as an exhibit to its report on Form N-PORT. The Company's Forms N-PORT are available on the SEC's website at http://www.sec.gov.

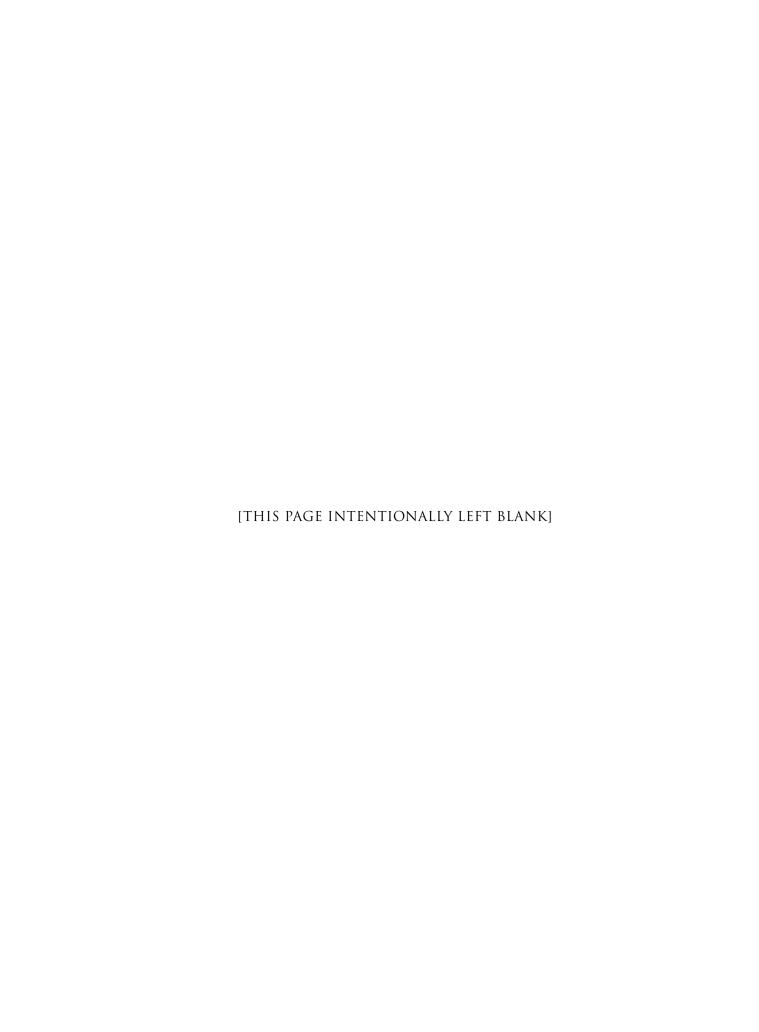

APPROVAL OF REVISED TRADING ADVISORY AGREEMENT

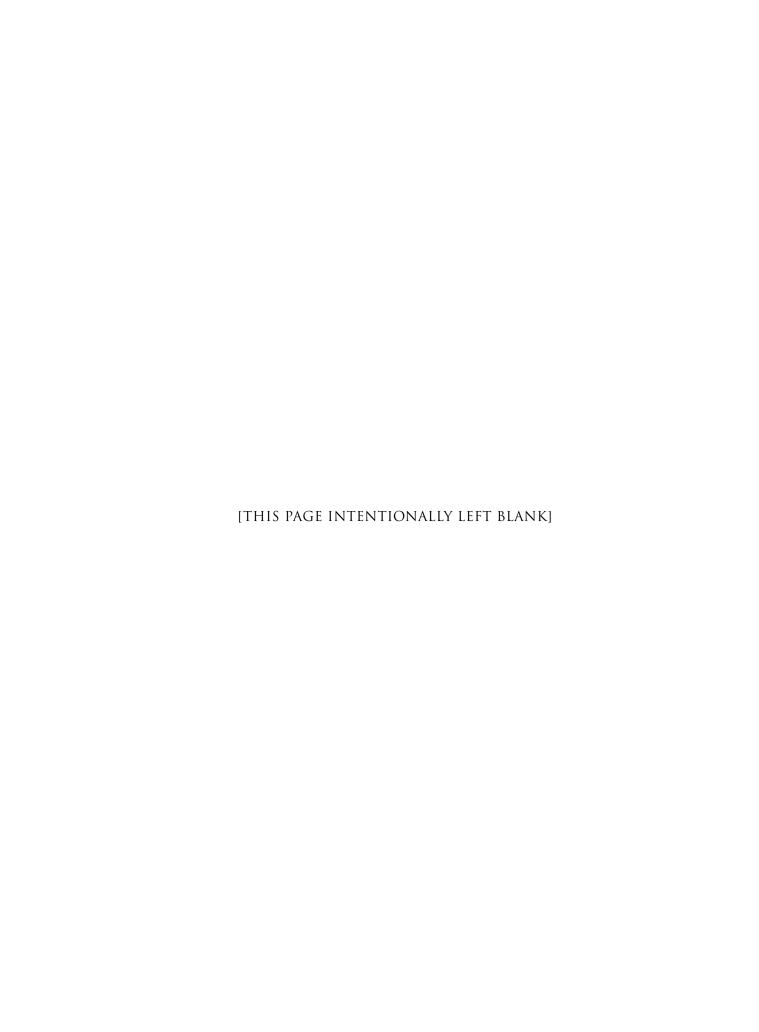

As required by the 1940 Act, the Board, including all of the Directors who are not "interested persons" of the Company, as that term is defined in the 1940 Act (the "Independent Directors"), considered the approval of a revised Trading Advisory Agreement (the "Graham Trading Advisory Agreement") by and among Abbey Capital, the Onshore Subsidiary, the SPC and Graham Capital Management, LP ("Graham") at a meeting of the Board held on November 15-16, 2023 (the "Meeting"). At the Meeting, the Board, including all of the Independent Directors, approved the Graham Trading Advisory Agreement for an initial period ending August 16, 2024. The Board's decision to approve the Graham Trading Advisory Agreement reflects the exercise of its business judgment. In approving the Graham Trading Advisory Agreement, the Board considered information provided by Abbey Capital and Graham, with the assistance and advice of counsel to the Independent Directors and the Company.

In considering the approval of the Graham Trading Advisory Agreement, the Board took into account all materials provided prior to and during the Meeting and at other meetings throughout the past year, the presentations made during the Meeting, and the discussions held during the Meeting. The Directors reviewed these materials with management of Abbey Capital, and discussed the Graham Trading Advisory Agreement with counsel in executive sessions, at which no representatives of Abbey Capital or Graham were present. The Directors considered whether approval of the Graham Trading Advisory Agreement would be in the best interests of the Fund and its shareholders and the overall fairness of the Graham Trading Advisory Agreement. The Directors noted their familiarity with Graham given Graham's current service as a Trading Adviser of the Fund. Among other things, the Board considered (i) the nature, extent, and quality of services provided to the Fund by Graham; (ii) descriptions of the experience and qualifications of the personnel providing those services; (iii) Graham's investment philosophies and processes; (iv) Graham's assets under management and client descriptions; (v) Graham's trade execution and trade allocation policies; (vi) Graham's advisory fee arrangements with the Company and other similarly managed clients, as applicable; (vii) Graham's compliance procedures; (viii) Graham's financial information and insurance coverage; and (ix) the investment performance of the portion of the Fund's assets that were managed by Graham.

The Directors concluded that Graham had substantial resources to provide services to the Fund. The Board also considered the fees payable to Graham under the Graham Trading Advisory Agreement and the services provided by Graham. In this regard, the Board noted that the fees for Graham were payable by Abbey Capital.

After reviewing the information regarding Abbey Capital's and Graham's costs, profitability and economies of scale, and after considering the services provided by Graham, the Board concluded that the trading advisory fees to be paid by Abbey Capital to Graham were fair and reasonable, that the Graham Trading Advisory Agreement is in the best interests of the Fund and its shareholders and does not involve a conflict of interest from which Abbey Capital derives an inappropriate advantage, and that the Graham Trading Advisory Agreement should be approved for an initial period ending August 16, 2024.
